The 52 full and 13 short papers were carefully reviewed and selected from 123 submissions. This symposium attempts to provide opportunities for the crossfertilization of knowledge and ideas from researchers in diverse fields that make up this interdisciplinary research area.

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent,

Acces PDF Caps Exam Papers Grade 4

Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully.

The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Current Issues in Second/Foreign Language Teaching and Teacher Development: Research and Practice represents a collection of selected papers from the 17th World Congress of the International Association of Applied Linguistics (AILA), which was held in August 2014 in Brisbane, Australia. The volume comprises 18 chapters presenting current research projects and discussing issues related to

second language acquisition, teaching and teacher education in a variety of contexts from around the world. This collection of research papers will be of use to both new and seasoned researchers in the field of applied linguistics. Teacher educators, language teachers and language policy makers will find this volume equally useful as the papers address current issues in language education.
