Like no other text for the intermediate microeconomics course, Goolsbee, Levitt, and Syverson's Microeconomics bridges the gap between today's theory and practice. A strong empirical dimension tests theory and successfully applies it. With carefully crafted features and vivid examples, Goolsbee, Levitt, and Syverson's text helps answer two critical questions students ask, "Do people and firms really act as theory suggests" and "How can someone use microeconomics in a practical way?" The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined the fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications.

Jaxon Malone is a Captain in the Air Force for the Earth World Government. She is sent on an espionage mission to the alien planet of Katiera. She finds herself torn between her loyalties to her home world Earth, and the new feelings she is developing towards the people of Katiera and their Commander. Will

she choose to break the ties that bind her to a dying home world? Or . . . Will she embrace her new life, and with it, a love far greater than any she could have imagined? Prime Commander KydEL must negotiate an alliance between the two alien nations of Kiljor and Katiera. The moment he meets the female warrior from Earth; she turns his world upside down. She causes unexpected mating urges to rise up within him. It is distracting and disruptive. He makes every effort to ignore her, and the mating urges. Will he be able to succeed with the negotiations before an all-out war descends? Will he overcome the mating urges or will he finally give in to them? Will he wait too long and lose her to a rival?

The story of Nelson Mandela who challenged apartheid in South Africa and who went on to become the president of the country.

I just want to be in heaven. When we enter seasons of hardship or shortage, we yearn for the peace, tranquility, and abundance we know we will find in heaven. But did you know that God has given us access to the riches of heaven here on earth? Bestselling author and entrepreneur Patricia King dives into Scripture and answers questions like · What does accessing the riches of heaven look like? · What kinds of riches are there? · How can I receive my spiritual inheritance? · What impedes me from accessing this heavenly abundance? · Does God bestow different kinds of riches on different people? The Father provides for his children and has given you the means to access his riches here and now. Will you accept his invitation?

Growing from tiny tadpoles to massive master jumpers, frogs and their life cycles are fascinating. How far can frogs jump? Why do their eggs look slimy? Answer these questions and many more in this illustrated introduction to amphibians. With her signature bright, well-labeled diagrams and simple text, Gail Gibbons introduces the habitat and life cycles of frogs and gives an overview of common frog behaviors. Important biology vocabulary is introduced, defined, and reinforced with kid-friendly language and clear illustrations--plus a page of intriguing frog trivia and clear diagrams that show how frogs are different from toads. Bonus material is included about the unique role frogs play in the environment.

Is prejudice hard-wired or socially acquired? Is stigmatising the Other inevitable? Do we purposefully draw on stereotypes to provoke prejudice from others? Can we confront and correct our biases? From the judicial system to the marketplace, from women's intentional self-sexualisation to prison exonerees' stigma-by-association, this book offers a compelling and wide-ranging discussion and review of the latest scientific evidence of what prejudice is, how it emerges, what it does, and how the discrimination and stigma that ensue can be reduced.
