Dental implants have become one of the most popular and rapidly growing techniques for replacing missing teeth. While their predictability, functionality, and durability make them an attractive option for patients and clinicians alike, complications can arise at any stage from patient assessment to maintenance therapy. Dental Implant Complications: Etiology, Prevention, and Treatment, Second Edition, updates and expands the hallmark first edition, which was the first comprehensive reference designed to provide clinicians of all skill levels with practical instruction grounded in evidence-based research. Featuring cases from a variety of dental specialties, the book covers the most commonly occurring implant complications as well as the unique Dental Implant Complications: Etiology, Prevention, and Treatment, Second Edition, is organized sequentially, guiding the reader through complications associated with the diagnosis, treatment planning, placement, restoration, and maintenance of implants at any stage. Complications associated with various bone augmentation and sinus lift procedures are also discussed in detail with emphasis on their etiology and prevention. Each chapter utilizes a highly illustrated and user-friendly format to showcase key pedagogical features, including a list of take home tips summarizing the fundamental points of each chapter. New chapters include discussions of complications from drug prescribing, implant naturalization, cemented restorations, loose implant restoration syndrome, and craniofacial growth. Readers will also find more case presentations to see how complications have been managed in real-world situations. Dental Implant Complications: Etiology, Prevention, and Treatment, Second Edition, brings together contributions from leading experts in the field under the superior editorship of Dr. Stuart Froum. With its pragmatic approach to preventing and managing implant complications, this expertly crafted text continues to serve as an indispensable clinical reference and guide for all dentists placing or restoring implants.
