Madurese is a major regional language of Indonesia, with some 14 million speakers, mainly on the island of Madura and adjacent parts of Java, making it the fourth largest language of Indonesia after Indonesian, Javanese, and Sundanese. There is no existing comprehensive descriptive grammar of the language, with existing studies being either sketches of the whole grammar, or detailed descriptions of phonology and morphology or some particular topics within these components of the grammar. There is no competing work that provides the breadth and depth of coverage of this grammar, in particular (though not exclusively) with regard to syntax.

In this second edition of *The Uses of Grammar*, Judith Rodby and W. Ross Winterowd develop their successful first edition with new examples, more discussion questions and exercises, and clear explanations of the grammatical principles that teach students to understand grammar conceptually and deeply. The first edition has been completely redesigned visually to enhance learning and retention. Rodby and Winterowd's *The Uses of Grammar 2e* is an accessible approach grounded in deep understanding of language acquisition, structure, and even the rhetoric of everyday use. *The Uses of Grammar 2e* integrates traditional, structural, and functional concepts with ideas from contemporary linguistics and grammatical study. Rather than simply partition the study of grammar from the bottom up—from the parts to the whole—Rodby and Winterowd employ a unique structure based on the differentiation of form and function.

It is a refresher, a reference book and a workbook for teachers of English. It is also for teachers handling subjects other than English in schools and colleges. The book centres round the idea that grammar paves the way for smooth and accurate communication, and aims to strike a balance between conventional concepts and latter-day developments, and between descriptive grammar and grammar in use. Each chapter of the book begins by describing the forms of the grammatical class or category it deals with. It then presents a variety of illustrative examples. Finally, it explains the communicative uses of the forms and the situations in which they are typically used. A distinct feature of the book is that it deals with both spoken and written grammar, with greater emphasis on the written mode.

Provides information on grammatical rules and how to use them, with advice on adding variety to writing, and examples of the right and wrong way to say things.

Mastering English Grammar is a start-at-the-basics, no-nonsense English Grammar book, not only for students of English, but also for those studying modern languages, business people and secretaries - in fact anyone who has forgotten/never known the simple rules of the language they speak.

A Grammar of Nungon is the comprehensive reference grammar of Nungon, a previously-undescribed Papuan language of northeast Papua New Guinea. Hannah Sarvasy provides a rich description of the language in its cultural context, based on original immersion fieldwork.

American English Grammar introduces students to American English in detail, from parts of speech, phrases, and clauses to punctuation and explaining (and debunking) numerous "rules of correctness," integrating its discussion of Standard American grammar with thorough coverage of the past sixty years' worth of work on African American English and other ethnic and regional non-Standard varieties. The book's examples and exercises include 500 real-world sentences and longer texts, drawn from newspapers, film, song lyrics, and online media as well as from Mark Twain, Stephen King, academic texts, translations of the Bible, poetry, drama, children's literature, and transcribed conversation and TV and radio shows. Based on twenty years of classroom testing and revision, American English Grammar will serve as a classroom text or reference that teaches students how to think and talk not only about the mechanics of sentences but also about the deep and detailed soul and nuance of the most widely used language in human history.
