The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

In a neo-liberal era concerned with

discourses of responsible individualism and the ' selfie ', there is an increased interest in personal lives and experiences. In contemporary life, the personal is understood to be political and these ideas cut across both the social sciences and humanities. This handbook is specifically concerned with auto/biography, which sits within the field of narrative, complementing biographical and life history research. Some of the contributors emphasise the place of narrative in the construction of auto/biography, whilst others disrupt the perceived boundaries between the individual and the social, the self and the other. The collection has nine sections: creativity and collaboration; families and relationships; epistolary lives; geography; madness; prison lives; professional lives; ' race ' ; and social justice and disability. They illustrate the inter- and multi-disciplinary nature of

auto/biography as a field. Each section features an introduction from a section editor, many of whom are established researchers and/or members of the British Sociological Association (BSA)

Auto/Biography study group. The handbook provides the reader with cutting-edge research from authors at different stages in their careers, and will appeal to those with an interest in auto/biography, auto-ethnography, epistolary traditions, lived experiences, narrative analysis, the arts, education, politics, philosophy, history, personal life, reflexivity, research in practice and the sociology of the everyday. Clinical Encounters in Sexuality makes an intervention into the fields of clinical psychoanalysis and sexuality studies, in an effort to think about a range of issues relating to sexuality from a clinical psychoanalytic perspective. The editors have chosen queer theory as an interlocutor for the clinical contributors,

because it is at the forefront of theoretical considerations of sexuality, as well as being both reliant upon and suspicious of psychoanalysis as a clinical practice and discourse. The book brings together a number of psychoanalytic schools of thought and clinical approaches, which are sometimes at odds with one another and thus tend not to engage in dialogue about divisive theoretical concepts and matters of clinical technique. The volume also stages, for the first time, a sustained clinical psychoanalytic engagement with queer theory. The central questions we present to readers to think about are: What are the discourses of sexuality underpinning psychoanalysis, and how do they impact on clinical practice? In what ways does sexuality get played out for, and between, the psychoanalytic practitioner and the patient? How do social, cultural and historical attitudes towards sexuality

people in the Nordic countries. The five country studies show how research on the extent of, and the motivations and conditions for, young people selling sex in the Nordic countries is rather scarce and that there are few social initiatives that target young people specifically. The interviews with service providers and the literature reviewed point to individual vulnerabilities related to young people's experiences of compensational sex. In order to develop preventive measures more knowledge on structural factors related to experiences of compensational sex is needed.
