"Chapter Goals"
and "Chapter
Goals Revisited"

are two new
features in this
revision. Each
chapter starts
with a list of
goals that
allows students
to see what is
ahead. The
chapter

File Type PDF

Chemistry And

concludes with a
repetition of
that list with
summary

information
added. General
ChemistryNow is
correlated to
this list. New
to this edition
are dozens of
"Active Figures"
to help students
visualize

File Type PDF
Chemistry And
Chemistry in
action. These
animated
versions of text
art help
students master
key concepts
from the book.
"Active Figures"
can be used as
demonstrations
in the classroom
and each figure
is paired with a

File Type PDF Chemistry And

guided
exploration and
exercise to
ensure students
understand the
concept being
illustrated. In-
text worked

"Examples"
follow a four-
part structure:
"Problem"
statement,
"Strategy" for

File Type PDF

Chemistry And

approaching the
problem, fully
worked

"Solution," and,
where

appropriate, a
"Comment" on the
problem and

solution.

Through this
approach,
students learn
how to approach
a problem rather

File Type PDF Chemistry And

than merely
learning to
memorize problem
types and
memorized
solution
approaches.

Exercises appear
throughout the
text so students
can check their
comprehension of
the material.

Answers are in

File Type PDF Chemistry And

an appendix.

"Problem-Solving
Tips" provide
readers tips for
determining how
to approach and
solve problems.

"Chemical
Perspectives"

are essays that
bring relevance
and perspective
to a study of
chemistry. In

File Type PDF

Chemistry And

Order to put
chemistry in its
historical
context,

"Historical
Perspective"
essays describe
the people who
were key to
developing the
concepts of the
chapter. "A

Closer Look"
essays describe

ideas that form
the background
to material
under discussion
or provide
another
dimension of the
subject. -
