The text provides information on the core elements of the subject of marketing without the depth that often surrounds these to ensure that the basic concepts are easily identifiable and accessible. Students on MBA courses often do not have time to read a long text as they are studying many subjects, therefore they require a good, basic guide pitched at the appropriate level to be able to be absorbed quickly but still provide enough of a strategic element to stretch them. Written by a successful author team, Management of Marketing covers the key topics of the marketing component of an MBA course and provides a good balance of theory and application to ensure both aspects of the core concepts are covered. Designed specifically for MBA students who require an accessible but thorough guide to the subject Written by an experienced author team which has a proven track record of providing accessible information for the intended audience Student and lecturer web sites accompany the book providing additional pedagogical material to enhance the points in the text and ensure further learning can be pursued with ease

BH CIM Coursebooks are crammed with a range of learning objective questions, activities, definitions and summaries to support and test your understanding of the theory. The 07/08 editions contains new case studies which help keep the student up to date with changes in Marketing strategies.
