This suite of resources provide a clear two-year framework to help you and your students meet and exceed AQA's mastery goals using content matched to AQA's big ideas and enquiry processes. This title is AQA approved. * Aligned to AQA's big ideas and KS3 syllabus with Student Book Part 1 covering Part 1 of the syllabus and Student Book Part 2 covering Part 2 * Three part progression in lessons encompassing the AQA mastery statements of know, apply and extend * Enquiry processes embedded throughout the course to help your students think and work scientifically * Differentiated 'check your progress' lists for each chapter to help students and teachers measure and make progress in learning * In addition to questions throughout the text, there are questions at the end of each chapter providing assessment benchmarked to the know, apply and extend statements * 'Ideas you have met before' and 'In this chapter you will find out' provide context and link ideas together for students * 'Know this vocabulary' boxes reflect keywords from the AQA syllabus * Prepares students for the new, more challenging GCSE * Provides the first step in our AQA syllabus support for Secondary Science giving students a clear path of progression * From experienced author team Ed Walsh and Tracey Baxter * Tailored assessment and intervention matching to each chapter available in our 'GCSE Science Ready' course

This suite of resources provide a clear two-year framework to help you and your students meet and exceed AQA's mastery goals using content matched to AQA's big ideas and enquiry processes. This title is AQA approved. * Aligned to AQA's big ideas and KS3 syllabus with Student Book Part 1 covering Part 1 of the syllabus and Student Book Part 2 covering Part 2 * Three part progression in lessons encompassing the AQA mastery statements of know, apply and extend * Enquiry processes embedded throughout the course to help your students think and work scientifically * Differentiated 'check your progress' lists for each chapter to help students and teachers measure and make progress in learning * In addition to questions throughout the text, there are questions at the end of each chapter providing assessment benchmarked to the know, apply and extend statements * 'Ideas you have met before' and 'In this chapter you will find out' provide context and link ideas together for students * 'Know this vocabulary' boxes reflect keywords from the AQA syllabus * Prepares students for the new, more challenging GCSE * Provides the first step in our AQA syllabus support for Secondary Science giving students a clear path of progression * From experienced author team Ed Walsh and Tracey Baxter * Tailored assessment and intervention matching to each chapter available in our 'GCSE Science Ready' course

Secure the key science skills and knowledge students need to succeed in the new KS3 Science curriculum with Pupil Book 1.

Help pupils build skills for KS3 Science practical work to be ready for the AQA GCSE 9-1 Required Practicals. Provide a consistent and supportive approach to KS3 Biology, Chemistry and Physics practicals with clear methods, questions that test understanding and applying skills in different contexts. Establish a consistent approach to KS3 Science practicals with everything together in one write-in book. Help build confidence and familiarity from Year 7 upwards with a focus on scientific vocabulary, drawing and analysing graphs, and GCSE 9-1 command words. Cheaper than photocopying, the lab book can be used flexibly with any scheme of learning. Each practical activity:* Explains the purpose of the practical and relates it to the science* Develops core skills including maths skills* States common mistakes and how to avoid them* Supports pupils to record and evaluate results* Checks understanding with key questions* Develops scientific reasoning with spot the mistake questions* Encourages pupils to apply their skills to unfamiliar scientific contexts* Helps pupils to evaluate their learning with self-reflection sections

Level: KS3 Subject: Science Research proves that repeated practice is more effective than repeated study, which is why this KS3 Science workbook provides plenty of practice opportunities for all Year 8 Science topics. Packed with biology, chemistry and physics practice questions, students will be able to reinforce and test their understanding of all the lessons taught in school. Not only does this science book encourage students to achieve their best possible results, but it will build confidence by ensuring fluency in all Year 8 science skills taught at Key Stage 3. For more KS3 Science study materials, try our KS3 Science All-in-One Revision and Practice (9780007562831).

This workbook supports the new Key Stage 3 Programme of Study for Science, providing focused skills practice for all the topics relevant to students in Year 8. It will test understanding of scientific knowledge and the principles of working scientifically, build scientific vocabulary, and develop relevant comprehension and mathematical skills.

Teacher Pack 3 offers comprehensive support in your teaching of the new 'KS3 Science Program of Study and Framework'. The Pack includes - Teaching notes for every spread of the accompanying Pupil Book; Ideas for engaging lessons, including starters and plenaries; Links to How Science Works for every lesson o CD-ROM with customisable lesson plans, worksheets and technician's notes in Word format.

Secure the key science skills and knowledge students need to succeed in the new KS3 Science curriculum with Pupil Book 3.

Secure the key science skills and knowledge students need to succeed in the new KS3 Science curriculum with Pupil Book 1. * Engage students of all levels in KS3 Science with clearly differentiated material. * Introduce fundamental ideas in the blue section, develop them in the orange section and extend them in the purple section. * Embed progression with links to prior learning to help students build on what they already know. * Put science into context with engaging introductions and illustrations. * Check understanding with questions on every topic. Questions test understanding of key concepts, processes, applications and evaluation skills. * Build skills for GCSE Science with longer answer questions. * Model key ideas and skills in the mastery checklists at the end of topics.
