Reissuing works originally published between 1971 and 1994, this collection includes books which offer a broad spectrum of views on curriculum, both within individual schools and the wider issues around curriculum development, reform and implementation. Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope. Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level. The Set includes books on cross-curricular topics such as citizenship and environment, and also guidance, careers, life skills and pastoral care in schools. A fantastic collection of education history with much still relevant today.
