I have never found books 2 and 3. I would love to have books 1 through 5. Baker has several different books under similar title "The Complete Organ Player" and they easily confuse the neophyte. Some are Song Books, Bakers songbooks look like his instruction books but they are very different in purpose and content.

This is the second series of The Complete Organ Player Songbook. The four books in the series have been published in response to an overwhelming demand by organists for more songbooks to increase their repertoire. The songs in each book of Series 2 are all arranged by Kenneth Baker, a leading authority on modern organ playing. Volume 1: Contains 24 popular songs, including A Certain Smile And I Love Her. Be My Love Suggested registrations given for each piece and a Keyboard Chord Chart covers all the chords needed to play the songs. The general playing standard of this book is that reached after going through Books 1 and 2 of the Complete Organ Player. But if you have followed any other course, you will still be able to play the repertoire in this and other books of the Second Series. Volume 2: 21 well known tunes including Fools Rush In. In A Little Spanish Town, Kiss Me Honey-Honey Kiss Me. Suggested registrations and Keyboard Chord Chart. Recommended for use with Books 3 and 4 of The Complete Organ Player. Volume 3: 18 popular songs including Don't Get Around Much Any More, Thank You For The Music, Blue Suede Shoes. Suggested registrations and Keyboard Chord Chart. Ideal for use with The Complete Organ Player Books 5, 6 and 7. Volume 4: Contains 22 hit songs including Big Spender, Basin Street Blues, Michelle. Theme from E.T. Recommended for use with Supplements 1 and 2. Registrations included.

Thirty-one of the best-known hymns, with suggested registrations for each song and a keyboard chord chart.

This classic method for beginners provides a brief history of the instrument, an explanation of organ construction, a discussion of the various stops and their management, a section devoted to practical study, and several pieces.

The renowned Flor Peeters is known as an organist and composer from his native Belgium to all of Europe and both Americas. Little Organ Book, consisting of hymn tunes and original compositions, has won special favor among teachers and students because of the clear presentation of elementary rules for organ playing.

Techniques on how to gain greater fluidity of movement while playing to improve the quality of the experience are offered in this manual for serious piano players. This book encourages musicians to develop a broader understanding of the involvement of the entire body in playing--and the strains playing places on the body--by focusing on body mapping to increase awareness of the body's function, size, and structure. Ways in which piano, organ, harpsichord, clavichord, and digital keyboard players can eliminate or prevent carpal tunnel syndrome and other debilitating conditions without traditional medical treatments are also explored.

Your complete guide to playing the keys Making beautiful music on a keyboard or piano requires some know-how and practice. This book offers guidance on how to get the most out of your time learning to play the keys. With six hands-on books wrapped up in one, you'll get a deep guide to the techniques the pros use. Discover the details of music theory and reading music, explore different musical genres, and use practice exercises to improve quickly. You'll even find tips on using electronic keyboard technology to enhance your sound. Inside... Piano & Keyboard 101 Understanding Theory and the Language of Music Beginning to Play Refining Your Technique and Exploring Styles Exercises: Practice, Practice, Practice Exploring Electronic Keyboard Technology

The authors' new approach to learning two playing techniques offers a systematic method for mastering the modern, legato technique needed for organ music composed after 1750, as well as an articulated technique for earlier works. The authors also present useful information on accompanying anthems and solos and on adapting piano and orchestral accompaniments to the organ.
