Mystische Erlebnisse, Lebensgef ä hrliche Pr ü fungen, Bewusstseinsreisen durch Licht und Dunkelheit: Dies war der Einweihungsweg der sagenumwobenen Mysterienschulen des alten Ä gypten und des paradiesischen Kontinents Lemuria, den junge Adepten gingen, um Ä ngste zu ü berwinden und zu voller spiritueller Gr ö ß e heranzuwachsen. Wie auch wir modernen Menschen von diesem alten Wissen profitieren k ö nnen, zeigt Eva-Maria Mora: Denn in der heutigen Zeit ist es das Leben selbst, das uns auf unseren ganz pers ö nlichen Einweihungsweg schickt, indem es uns vor Herausforderungen stellt oder in Krisen st ü rzt. Ob Krankheit, Trennung, finanzielle Probleme oder der Verlust eines lieben Angeh ö rigen — indem wir diese Pr ü fungen bewusst als Teil unseres vorgeburtlich gew ä hnten Seelenplans annehmen, k ö nnen wir leidvolle Erfahrungen als Chance f ü r unser spirituelles Wachstum begreifen, sie meistern und gest ä rkt aus ihnen hervorgehen. Mit spannenden Fallbeispielen und zahlreichen Ü bungen und Meditationen k ö nnen wir negative Denkmuster auf ö sen, uns wieder mit dem Leben vers ö hnen und uns von der liebevollen Kraft unserer Seele leiten lassen. Identifying and transforming the true cause of an illness or difficult life situation is a very complex task. Through connecting and communicating with angels, Quantum Angel (QA) Practitioners help those living with pain access the divine matrix and restore health and balance by applying the "Angel Healing Formula."QA Healing applies fundamental concepts of quantum physics to perform healing, either hands-on or at a distance. It uses diagnostic intuition, clairvoyance, telepathy, energy healing, and prayer and goes beyond physical death and integrates nonphysical helpers in the process.

Fully revised and updated, this second edition of Contemporary Choreography presents a range of articles covering choreographic enquiry, investigation into the creative process, and innovative challenges to traditional understandings of dance making. Contributions from a global range of practitioners and researchers address a spectrum of concerns in the field, organized into seven broad domains: Conceptual and philosophical concerns Processes of making Dance dramaturgy: structures, relationships, contexts Choreographic environments Cultural and intercultural contexts Challenging aesthetics Choreographic relationships with technology. Including 23 new chapters and 10 updated ones, Contemporary Choreography captures the essence and progress of choreography in the twenty-first century, supporting and encouraging rigorous thinking and research for future generations of dance practitioners and scholars.

The age of high tech is haunted by an image from the last century that developed in the three decades between the patenting of the cinematographe and its turn toward sound: the dancing machine, paradox of the ease of mechanization and its tortures, embodiment of the motor and the automaton, image of fusion and fragmentation. An excavation of this image, in the historical context of maximum productivity and mechanical reproducibility, reveals its development in European Modernism--Modernism drawn to dancers of American, African, and Asian origins, to Taylorism as well as to Primitivism, to cinema and to myth. This book traces the abstraction and anonymity of the bodies making machines dance, in the codes of modernisms graphic and choreographic, and in the streamlined gestures of industry, avant-garde art, and entertainment. What surfaces is dance ' s centrality to machine aesthetics and to its alternatives, as well as to the early elaboration of the machine that would become the ultimate guarantor of modern dance ' s de-mechanization, the motion picture camera.

The only scholarly book in English dedicated to recent European contemporary dance, Exhausting Dance: Performance and the Politics of Movement examines the work of key contemporary choreographers who have transformed the dance scene since the early 1990s in Europe and the US. Through their vivid and explicit dialogue with performance art, visual arts and critical theory from the past thirty years, this new generation of choreographers challenge our understanding of dance by exhausting the concept of movement. Their work demands to be read as performed extensions of the radical politics implied in performance art, in post-structuralist and critical theory, in post-colonial theory, and in critical race studies. In this far-ranging and exceptional study, Andre Lepecki brilliantly analyzes the work of the choreographers: * Jerome Bel (France) * Juan Dominguez (Spain) * Trisha Brown (US) * La Ribot (Spain) * Xavier Le Roy (France-Germany) * Vera Mantero (Portugal) and visual and performance artists: * Bruce Nauman (US) * William Pope.L (US). This book offers a significant and radical revision of the way we think about dance, arguing for the necessity of a renewed engagement between dance studies and experimental artistic and philosophical practices.

The author's writings are widely known in the United States and Europe.
