“Another irresistible thriller” (Entertainment Weekly) from Jessica Knoll—author of Luckiest Girl Alive—the New York Times bestselling story about two sisters whose lifelong rivalry combusts when they join the cast of a reality show—resulting in murder. by getting pregnant while in college and keeping the baby. Now Brett—tattooed, body-positive, engaged to a powerful female lawyer, and only twenty-seven—has skyrocketed to meteoric professional success through a philanthropic cycling business. Untethered by children of her own, she's fueled by the bitter resentment of her youth. Brett's become the fan favorite on a reality show featuring hyper-successful, beautiful, and hugely competitive entrepreneurial women—think *Real Housewives* meets *Shark Tank*. *Goal Diggers'* success means Brett is the object of vitriol and jealousy among her cast mates. Meanwhile, Kelly, penniless and struggling to raise her daughter alone, finds herself crawling back to Brett to beg for a job. When Kelly is cast alongside Brett and her three shameless costars—Stephanie, Lauren, and Jen—shocking secrets come to light. And Brett and Kelly will do whatever it takes to keep the world, and their cast mates, in the dark. The show's executives expect a season filled with the typical catfights and posturing that makes these shows catnip for the viewing public. But no one expects that the fourth season of *Goal Diggers* will end in murder... “Engrossing...Deliciously savage and wildly entertaining” (*People*, *Book of the Week*), *The Favorite Sister* is “a twisty, sexy thriller, jam-packed with wit and snark” (*Glamour*). This “binge-worthy beach read” (*USA TODAY*, 3 out of 4 stars) offers a scathing take on the oft-lionized bonds of sisterhood, and the relentless pressure to stay young, relevant, and salable.

Young, arrogant tycoon Earl Grey seduces the naïve coed Anna Steal with his overpowering good looks and staggering amounts of money, but will she be able to get past his fifty shames, including shopping at Walmart on Saturdays, bondage with handcuffs, and his love of BDSM (*Bards, Dragons, Sorcery, and Magick*)? Or will his dark secrets and constant smirking drive

The New York Times bestseller from the author of *The Order of Time and Reality Is Not What It Seems* and *Helgoland* “One of the year’s most entrancing books about science.”—*The Wall Street Journal* “Clear, elegant...a whirlwind tour of some of the biggest ideas in physics.”—*The New York Times Book Review* This playful, entertaining, and mind-bending introduction to modern physics briskly explains Einstein's general relativity, quantum mechanics, elementary particles, gravity, black holes, the complex architecture of the universe, and the role humans play in this weird and wonderful world. Carlo Rovelli, a renowned theoretical physicist, is a delightfully poetic and philosophical scientific guide. He takes us to the frontiers of our knowledge: to the most minute reaches of the fabric of space, back to the origins of the cosmos, and into the workings of our minds. The book celebrates the joy of discovery. “Here, on the edge of what we know, in contact with the ocean of the unknown, shines the mystery and the beauty of the world,” Rovelli writes. “And it’s breathtaking.”
