This substantially revised and updated edition of a widely used textbook covers the major approaches to counseling and psychotherapy from a Christian perspective, with hypothetical verbatim transcripts of interventions for each major approach and the latest empirical or research findings on their effectiveness. The second edition covers therapies and techniques that are increasing in use, reduces coverage of techniques that are waning in importance, and includes a discussion of lay counseling. The book presents a Christian approach to counseling and psychotherapy that is Christ-centered, biblically based, and Spirit-filled.

The American Association of Christian Counselors and Tyndale House Publishers are committed to ministering to the spiritual needs of people. This book is part of the professional series that offers counselors the latest techniques, theory, and general information that is vital to their work. While many books have tried to integrate theology and psychology, this book takes another step and explores the importance of the spiritual disciplines in psychotherapy, helping counselors to integrate the biblical principles of forgiveness, redemption, restitution, prayer, and worship into their counseling techniques. Since its first publication in 1996, this book has quickly become a contemporary classic—a go-to handbook for integrating what we know is true from the disciplines of theology and psychology and how that impacts your daily walk with God. This book will help you integrate spiritual disciplines—such as prayer, Scripture reading, confession—into your own life and into counseling others. Mark R. McMinn, Ph.D., is professor of psychology at Wheaton College Graduate School in Wheaton, Illinois, where he directs and teaches in the Doctor of Psychology program. A diplomate in Clinical Psychology of the American Board of Professional Psychology, McMinn has thirteen years of postdoctoral experience in counseling, psychotherapy, and psychological testing. Seasoned counselors and professors Ron Hawkins and Tim Clinton offer a comprehensive guide that empowers Christian counselors by clarifying their task: to help people take possession of their souls...through the power of the Spirit; under the authority of the Word; in a supportive community of accountability...that they may be like Christ. The authors address head-on today's enticing new imitations of true peace and tantalizing opportunities for people in pain to anesthetize themselves. But they also highlight the foundation of hope: God loves, he empowers, and he refuses to abandon his passion for connection with his children. Case studies illustrate how to help people take possession of the thinking self, the feeling self, the decision-making self, the physical self, and the relational self. This comprehensive plan for effective intervention is perfect for lay counselors, students, and professionals looking for ways to integrate their faith and practice.

A classic in the field of Christian counseling, *Competent to Counsel* is one of the first works to fully articulate a vision of "nouthetic" counseling—a strictly biblical approach to behavioral counseling and therapy. Dr. Jay Adams defends the idea that the Bible itself, as God's Word, provides all the principles needed for understanding and engaging in holistic counseling. Using biblically directed discussion, nouthetic counseling works by means of the Holy Spirit to bring about change—both immediate and long-term—in the personality and behavior of the counselee. As he points out in his introduction, "I have been engrossed in the project of developing biblical counseling and have uncovered what I consider to be a number of important scriptural principles. . . There have been dramatic results. . . Not only have people's immediate problems been resolved, but there have also been solutions to all sorts of long-term problems as well." *Competent to Counsel* has helped thousands of pastors, students, laypersons, and Christian counselors develop: A general approach to (and theology of) Christian counseling. Specific, practical responses to particular problems useful for teaching, study, and personal application. Since its first publication in 1970, this book has gone through over thirty printings. It establishes the basis for and an introduction to a counseling approach that is being used in pastors' studies, in counseling centers, and across dining room tables throughout the country and around the world.
