CPA Australia, Chartered Accountants ANZ and the Institute of Public Accountants are all members of the APESB. The role of APESB is to develop and issue professional and ethical standards in the public interest that apply to members of CPA Australia and the other two Australian accounting bodies. The Code is based on the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA) of the International Federation of Accountants (IFAC).

As a consequence of a number of high profile national and international corporate collapses, the international accounting community has firmly directed their attention to the need for robust ethical standards, sound and transparent corporate governance and an awareness of social, environmental and corporate accountabilities. In light of the increased expectation upon a universal professional code of conduct, Ethics, Governance and Accountability is a timely and valuable new text for educators and students of accounting. Students are presented with core ethical models necessary for ethical decision-making and introduced to a range of professional issues such as conflict of interests, professional independence, fraud and forensic accounting, corporate governance and social/corporate responsibility. This text addresses the increasing professional expectation that graduates possess a well-developed sense of ethical models and an awareness of their professional role and responsibilities.

exam technique.

This book provides a comprehensive, authoritative, and thought-provoking examination of the ethical issues encountered by accountants working in the industry, public practice, nonprofit service, and government. Gordon Klein's, *Ethics in Accounting: A Decision-Making Approach*, helps students understand all topics commonly prescribed by state Boards of Accountancy regarding ethics literacy. *Ethics in Accounting* can be utilized in either a one-term or two-term course in Accounting Ethics. A contemporary focus immerses readers in real world ethical questions with recent trending topics such as celebrity privacy, basketball point-shaving, auditor inside trading, and online dating. Woven into chapters are tax-related issues that address fraud, cheating, confidentiality, contingent fees and auditor independence. Duties arising in more commonplace roles as internal auditors, external auditors, and tax practitioners are, of course, examined as well.
