In this novel the light and the dark sides of 19th-century London flow into each other, attracting the attention of famous names such as Marx and Gissing, but also of less well-known characters, who play a significant role in a tale that is a mixture of fable, adventure and Gothic comedy.

Now a major motion picture A literary star returns with an addictive tale of murder in Victorian London. Peter Ackroyd is "our most exciting and original writer... one of the few English writers of his generation who will be read in a hundred years' time." -- The Sunday Times (London) Without a doubt, Peter Ackroyd's breakout book. It has all the erudition and literary brilliance we expect of Ackroyd, yet it is as vivid, scary, and spellbinding as the best of Edgar Allan Poe. The year is 1880, the setting London's poor and dangerous Limehouse district, home to immigrants and criminals. A series of brutal murders has occurred, and, as Ackroyd leads us down London's dark streets, the sense of time and place becomes overwhelmingly immediate and real. We experience the sights and

sounds of the English music halls, smell the smells of London slums, hear the hooves of horses on the cobblestone streets, and attend the trial of Elizabeth Cree, a woman accused of poisoning her husband but who may be the one person who knows the truth about the murders. The wonderfully rhythmic shifting of focus from trial to back alleys, where we come upon George Gissing, author of *New Grub Street*, and even Karl Marx, gives the story a tremendous depth and resonance beyond its page-turning thriller plot. Peter Ackroyd has once again confirmed his place as one of the great writers of our time. Previously published as *The Trial Of Elizabeth Cree*.

Tracing representations of re-imagined Victorian families in literature, film and television, and social discourse, this collection, the second volume in Rodopi 's Neo-Victorian Series, analyses the historical trajectory of persistent but increasingly contested cultural myths that coalesce around the heterosexual couple and nuclear family as the supposed ' normative ' foundation of communities and nations, past and present. It sheds new light on the significance of families as a source of fluctuating cultural capital, deployed in diverse arenas from political debates, social policy and identity politics to equal rights activism, and analyses how residual as well as emergent ideologies of family are mediated and critiqued by contemporary arts and popular culture. This volume will be of interest to researchers and students of neo-Victorian studies, as well as scholars in contemporary literature and film studies, cultural

studies and the history of the family. Situating the nineteenth-century family both as a site of debilitating trauma and the means of ethical resistance against multivalent forms of oppression, neo-Victorian texts display a fascinating proliferation of alternative family models, albeit overshadowed by the apparent recalcitrance of familial ideologies to the same historical changes neo-Victorianism reflects and seeks to promote within the cultural imaginary.

until she accurately foretells a series of terrorist explosions. What is the role of the apocalyptic Predestined Men? And the clandestine Dominus? And what powers, ultimately, will prevail? In Peter Ackroyd's deft and surprising narrative, The Miller, the Prioress, the Wife of Bath and other characters from Canterbury Tales pursue these mysteries through a pungently vivid medieval London.

From the imagination of one of the most brilliant writers of our time and bestselling author of The Life of Thomas More, a novel that playfully imagines how the "modern" era might appear to a thinker seventeen centuries hence. At the turn of the 38th century, London's greatest orator, Plato, is known for his lectures on the long, tumultuous history of his now tranquil city. Plato focuses on the obscure and confusing era that began in A.D. 1500, the Age of

Mouldwarp. His subjects include Sigmund Freud's comic masterpiece "Jokes and Their Relation to the Subconscious," and Charles D.'s greatest novel, "The Origin of Species." He explores the rituals of Mouldwarp, and the later cult of webs and nets that enslaved the population. By the end of his lecture series, however, Plato has been drawn closer to the subject of his fascination than he could ever have anticipated. At once funny and erudite, The Plato Papers is a smart and entertaining look at how the future is imagined, the present absorbed, and the past misrepresented.

Providing detailed analysis of the recurrent structural and thematic traits in Peter Ackroyd's first nine novels, this work sets out to show how they grow out of the tension created by two apparently contradictory tendencies. These are, on the one hand, the metafictional tendency to blur the boundaries between story-telling and history, to enhance the linguistic component of writing, and to underline the constructedness of the world created in a way that aligns Ackroyd with other postmodernist writers of historiographic metafiction; and on the other, the attempt to achieve mythical closure, expressed, for example, in Ackroyd's fictional treatment of London as a mystic centre of power. This mythical element evinces

the influence of high modernists such as Ezra Pound and T.S. Eliot, and links Ackroyd's work to transition-to-postmodern writers such as Lawrence Durrell, Maureen Duffy, Doris Lessing and John Fowles.
