"One of my all-time favorite series! Sexy, spooky, and a thrill-ride you don't want to miss!" - USA Today bestselling author Tara SivecThe Benson hotel in Portland, Oregon might look like your ordinary, swanky turn-of-the century hotel, but deep in the heart of this historic icon, lie a few restless souls with secrets that won't stay buried.Amateur ghost hunters (and your favorite "will they or won't they" pair) Perry Palomino and Dex Foray spend an evening exploring the hotel for their Internet show "Experiment in Terror" - but this is no ordinary hotel and this is no ordinary episode. There's someone here in the Benson, someone dead, who will push the boundaries of what the duo know about ghosts and challenge Perry's very notion of the truth.The Benson is a short novella in the Experiment in Terror Series. It occurs between books #2 (Red Fox) and #3 (Dead Sky Morning) but can also be read as a standalone and is the perfect primer for anyone interested in the best-selling series (currently optioned for television).

Perry Palomino is not what you would call 'ordinary'. For one thing, there's her past which she likes to pretend never happened, and then there's the fact that she sees ghosts. Luckily for her, that all comes in handy when she stumbles across Dex Foray, an eccentric producer for an upcoming webcast on ghost hunters. Even though the show's budget is non-existent and Dex himself is a maddening enigma, Perry is instantly drawn into a world that both threatens her life and seduces her with a sense of importance. Her uncle's haunted lighthouse provides the perfect catalyst and backdrop for a horrific mystery that unravels the threads of Perry's fragile sanity and causes her to fall for a man, who, like the most dangerous of ghosts, may not be all that he seems.

Presents facts in the form of hand-lettered notes about the behavior and biology of foxes.

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize – winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

What happens when you no longer feel like yourself anymore? When fires spontaneously start-up around you, when you hear growling coming from underneath your bed, and you no longer recognise your face in the mirror. What happens then? Ghost hunter Perry Palomino doesn't have much time to find out. Now, the evil she used to hunt is a lot closer to home. It's inside of her, taking over her life bit-by-terrifying bit, and there's only one person who can help her. If part of her doesn't kill him first.

Don ' t face reality. Create reality! E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine 48-hour experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton ' s laws of motion. For years, you ' ve been hoping and praying that spiritual principles are true. Now, you can know. E-Squared proves the following: 1. There is an invisible energy force or field of infinite possibilities. 2. You impact the field and draw from it according to your beliefs and expectations. 3. You, too, are a field of energy. 4. Whatever you focus on expands. 5. Your connection to the field provides accurate and unlimited guidance. 6. Your thoughts and consciousness impact matter. 7. Your thoughts and consciousness provide the scaffolding for your physical body. 8. You are connected to everything and everyone else in the universe. 9. The universe is limitless, abundant, and strangely accommodating.

Amateur ghost hunter Perry Palomino has battled ghosts, fought off skinwalkers and skirted the fine line between life and death. But can she survive bunking down in Seattle for a week with her partner (and the man she secretly loves) Dex and his perfect girlfriend, Jennifer? And can she do so while being tormented by a malicious spirit from Dex's increasingly shady past? With love and life in the balance, Perry must discover the truth among the lies or risk losing everything she's ever cared about.
