Deep Change: Discovering the Leader Within (The Jossey ...

The Transforming paradigm is the paradigm in which leaders move and describe the paradigm in which profound change can occur in an organization. Leaders dare to take high risks, in contrast to individual contributors and managers, to achieve the organization's vision, even if it is not in their personal interest.

Don't let your company kill you! Open this book at your own risk. It contains ideas that may lead to a profound self-awakening. An introspective journey for those in the trenches of today's modern organizations, Deep Change is a survival manual for finding our own internal leadership power. By helping us learn new ways of thinking and behaving, it shows how we can transform ourselves from victims to powerful agents of change. And for anyone who yearns to be an internally driven leader, to motivate the people around them, and return to a satisfying work life, Deep Change holds the key.

How to realize your own leadership potential Based on the bestselling book, Deep Change, The Deep Change Field Guide takes readers through the introspective journey of personal transformation. The field guide streamlines, updates, and augments the content of the original book into an interactive self-teaching course that helps readers learn how to become powerful agents of change. Learning tools include reflection questions, film assignments, and action plans that help readers think about the concepts in terms of their own situations, and identify actions to embody the concepts in their lives. The field guide has been carefully designed so that individual learners can gain the same benefits that students have long enjoyed in the author's courses, and the learning tools also lend themselves to both the academic and professional classroom. Complements to Robert Quinn's bestselling book Deep Change Includes exercise, reflective questions, and worksheets throughout Provides reader with a "self-help" guide to overcoming the personal and professional obstacles that prevent transformational leadership For anyone who yearns to be an internally driven leader, to motivate the people around them, and develop a satisfying work life, The Deep Change Field Guide holds the key.

A bestseller--more than 300,000 copies sold, translated into seventeen languages, and featured in the Los Angeles Times, Washington Post, Miami Herald, Harvard Business Review, Fast Company, and Fortune; Shows how discoveries in quantum physics, biology, and chaos theory enable us to deal successfully with change and uncertainty in our organizations and our lives; Includes a new chapter on how the new sciences can help us understand and cope with some of the major social challenges of our times We live in a time of chaos, rich in potential for new possibilities. A new world is being born. We need new ideas, new ways of seeing, and new relationships to help us now. New science--the new discoveries in biology, chaos theory, and quantum physics that are changing our understanding of how the world works--offers this guidance. It describes a world where chaos is natural, where order exists "for free." It displays the intricate webs of cooperation that connect us. It assures us that life seeks order, but uses messes to get there. Leadership and the New Science is the bestselling, most acclaimed, and most influential guide to applying the new science to organizations and management. In it, Wheatley describes how the new science radically alters our understanding of the world, and how it can teach us to live and work well together in these chaotic times. It will teach you how to move with greater certainty and easier grace into the new forms of organizations and communities that are taking shape.

In this empowering book, Robert E. Quinn, author of the highly successful and influential Deep Change, gives readers the courage to use personal transformation to positively impact their home life, work life, and communities -- to be what he refers to as "inner-directed and outer-focused." We are all potential change agents, but most of us are trapped by belief that we as individuals cannot make a difference. Informed by the teachings of Jesus, Gandhi, and Martin Luther King, Jr. -- three of the most successful change agents ever -- Quinn outlines eight steps each of us can take to move ourselves and others to the highest levels of excellence. Following his advice, each of us can access and apply the power that lies within us in ways that will change our world for the better.

We've all had those perfect moments when events that could never be predicted, let alone controlled, remarkably seem to guide us along our path. Carl Jung called this phenomena "synchronicity" -- "a collaboration between persons and events that seems to enlist the cooperation of fate." In this book, Joseph Jaworski argues that the right state of mind will make you the kind of person who can enlist the cooperation of fate and take advantage of synchronicity, creating the conditions for "predictable miracles." If you are tired of being the victim of circumstances, this book will teach you to be the kind of person who creates your own circumstances. Jaworski shares the story of his own escape from an inauthentic life and his journey into a world filled with possibility. He maps out the inner path of leadership for those who feel the call to achieve their full potential, using his own life story to teach readers a greater truth. He examines the fundamental shifts of mind that free us to seek out the power of synchronicity. After reading this book, you will discover your own power to help those realities unfold. You will learn to "listen" to realities that want to emerge in this world and acquire the courage to help them be born. "Synchronicity illustrates that leadership is about the release of human possibilities, about enabling others to break free of limits -- created organizationally or self-imposed. Although this book describes the author's personal journey, it contains profound messages about organizational learning and effectiveness." -- Scientific American

For years, Margaret Wheatley has written eloquently about humanizing our organizations and helping people to work together more effectively and compassionately. She has shown how breakthroughs in chaos theory and quantum physics can enable organizations to function more like responsive, self-organizing living systems, rather than cold mechanisms of control. And she has gradually expanded these ideas into the wider arena of human society. In short, Margaret Wheatley is one of the most innovative and influential organizational thinkers of our time, and Finding Our Way brings together her shorter writings for the first time, touching on all the topics she has addressed throughout her career, showing how she has applied the ideas in her books s in many different situations. "The pieces presented here", she writes, "represent ten years of work, of how I took the ideas in my books and applied them in practice in many different situations. However, this is not a collection of articles. I updated, revised, or substantially added to the original content of each one. In this way, everything written here represents my current views on the subjects I write about." Provocative, challenging, at times poetic, and often deeply moving, Finding Our Way sums up Wheatley's thinking on a diverse scope of topics from leadership and management to education and raising children in turbulent times; from societal commentary to specific organizational techniques and more.

"At the very time the need for effective leadership is reaching critical proportions, Michael Fullan's Leading in a Culture of Change provides powerful insights for moving forward. We look forward to sharing it with our grantees." --Tom Vander Ark, executive director, Education, Bill and Melinda Gates Foundation "Fullan articulates clearly the core values and practices of leadership required at all levels of the organization. Using specific examples, he convinces us that the key change principles are equally critical for leadership in business and education organizations." --John Evans, chairman, Torstar Corporation "In Leading in a Culture of Change, Michael Fullan deftly combines his expertise in school reform with the latest insights in organizational change and leadership. The result is a compelling and insightful exposition on how leaders in any setting can bring about lasting, positive, systemic change in their organizations." --John Alexander, president, Center for Creative Leadership "Michael Fullan's work is remarkable. He masterfully captures how leaders can significantly improve their learning and performance, even in the uncontrollable, chaotic circumstances in which they practice. A tour de force." --Anthony Alvarado, chancellor of instruction, San Diego City Schools "Too often schools and businesses are seen as separate and foreign places. Michael Fullan blends the best of knowledge from each into an exemplary template for improving leadership in both." --Terrence E. Deal, coauthor of Leading with Soul Business, nonprofit, and public sector leaders are facing new and daunting challenges--rapid-paced developments in technology, sudden shifts in the marketplace, and crisis and contention in the public arena. If they are to survive in this chaotic environment, leaders must develop the skills they need to lead effectively no matter how fast the world around them is changing. Leading in a Culture of Change offers new and seasoned leaders' insights into the dynamics of change and presents a unique and imaginative approach for navigating the intricacies of the change process. Michael Fullan--an internationally acclaimed expert in organizational change--shows how leaders in all types of organizations can accomplish their goals and become exceptional leaders. He draws on the most current ideas and theories on the topic of effective leadership, incorporates case examples of large scale transformation, and reveals a remarkable convergence of powerful themes or, as he calls them, the five core competencies. By integrating the five core competencies--attending to a broader moral purpose, keeping on top of the change process, cultivating relationships, sharing knowledge, and setting a vision and context for creating coherence in organizations--leaders will be empowered to deal with complex change. They will be transformed into exceptional leaders who consistently mobilize their compatriots to do important and difficult work under conditions of constant change.

What does teaching look like at its very best? How are great teachers able to ignite a love of learning and change students' lives? In this book you'll learn from seven remarkable teachers who stretch beyond the conventional foundations of good teaching to transform their classrooms into exciting, dynamic places where teachers and students cocreate the learning experience. Based on six years of extensive work, the book outlines a framework that identifies four dimensions of effective teaching and learning that are integrated in these highly effective teachers' classrooms--and that all teachers can use to recognize and release the potential in themselves and their students.

Have you ever been thrust into a surprising place of leadership? Ebony S. Small is a young leader with a wealth of experience in both churches and organizations. With both practical and biblical wisdom, she invites you to discover your unique leadership gifts and see how every life experience can be used to help you lead from an authentic and healthy place.

Ten years ago, world-renowned professors W. Chan Kim and Renee Mauborgne broke ground by introducing "blue ocean strategy," a new model for discovering uncontested markets that are ripe for growth. In this bound version of their bestselling Harvard Business Review classic article, they apply their concepts and tools to what is perhaps the greatest challenge of leadership: closing the gulf between the potential and the realized talent and energy of employees. Research indicates that this gulf is vast: According to Gallup, 70% of workers are disengaged from their jobs. If companies could find a way to convert them into engaged employees, the results could be transformative. The trouble is, managers lack a clear understanding of what changes they could make to bring out the best in everyone. In this article, Kim and Mauborgne offer a solution to that problem: a systematic approach to uncovering, at each level of the organization, which leadership acts and activities will inspire employees to give their all, and a process for getting managers throughout the company to start doing them. Blue ocean leadership works because the managers' "customers" --that is, the people managers oversee and report to--are involved in identifying what's effective and what isn't. Moreover, the approach doesn't require leaders to alter who they are, just to undertake a different set of tasks. And that kind of change is much easier to implement and track than changes to values and mind-sets. The Harvard Business Review Classics series offers you the opportunity to make seminal Harvard Business Review articles a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world--and will have a direct impact on you today and for years to come.
