"In his lucid and bracing history, [David] Bell helps us better understand how [a] charismatic grifter came to occupy the most powerful office in the world . . . Bell's description of our predicament makes for essential reading." —Robert Zaretsky, Los Angeles Review of Books An immersive examination of why the age of democratic revolutions was also a time of hero worship and strongmen In *Men on Horseback*, the Princeton University historian David A. Bell offers a dramatic new interpretation of modern politics, arguing that the history of democracy is inextricable from the history of charisma, its shadow self. Bell begins with Corsica's Pasquale Paoli, an icon of republican virtue whose exploits were once renowned throughout the Atlantic World. Paoli would become a signal influence in both George Washington's America and Napoleon Bonaparte's France. In turn, Bonaparte would exalt Washington even as he fashioned an entirely different form of leadership. In the same period, Toussaint Louverture sought to make French Revolutionary ideals of freedom and equality a reality for the formerly enslaved people of what would become Haiti, only to be betrayed by Napoleon himself. Simon Bolivar witnessed the coronation of Napoleon and later sought refuge in newly independent Haiti as he fought to liberate Latin America from Spanish rule. Tracing these stories and their interconnections, Bell weaves a spellbinding tale of power and its ability to mesmerize. Ultimately, Bell tells the crucial and neglected story of how political leadership was reinvented for a revolutionary world that wanted to do without kings and queens. If leaders no longer rule by divine right, what underlies their authority? Military valor? The consent of the people? Their own Godlike qualities? Bell's subjects all struggled with this question, learning from each other's example as they did so. They were men on horseback who sought to be men of the people—as Bell shows, modern democracy, militarism, and the cult of the strongman all emerged together. Today, with democracy's appeal and durability under threat around the world, Bell's account of its dark twin is timely and revelatory. For all its dangers, charisma cannot be dispensed with; in the end, Bell offers a stirring injunction to reimagine it as an animating force for good in the politics of our time.

This volume, first published in 1984, discusses the viability of applying the 'Mediterranean model' to three countries that were transitioning to democracy, - Spain, Greece and Portugal - combining both comparative and national case-study approaches. In particular, Spain, Greece and Portugal offer

## Read Free Democratic Politics Spain Bell David S

comparable examples of the problems of establishing new democratic systems within relatively unstable and economically less developed environments. This title applies different theories of regime transition to the countries in question. This volume will be of interest to students of politics.

Since Spain's transition to democracy there has been rapid economic modernization, the establishment of a functioning liberal democracy, and a cultural renaissance. One area in which ordinary Spaniards have noted a massive change since the 1970s has been in the transformation of the road and rail networks, and also in local amenities—from sporting facilities to centers for the aged. Also impressive is the cleanliness of Spanish cities and the efforts put into town planning. And from the 1980s the country also built a successful public health system. As a result, for the first time since the 19th century Spaniards can largely look toward the West without any sense of inferiority (though, in recent years, confidence has been hit by the deep recession of 2008–2011 and the constant corruption scandals). This third edition of Historical Dictionary of Spain contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Spain.

Contemporary Spanish Politics gives fresh insight into the formal and informal workings of this dynamic southern European democracy. It thoroughly discusses the history, politics, institutions, parties, economy and foreign policy of Spain at an introductory level ideal for an undergraduate audience. Each chapter provides a research-based overview of the studied topic which can then be used as the basis for further research by students. The key themes of the book are: recent history of Spain after Franco's death the political culture of the country the institutional framework foreign policy including the reaction to the global anti-terrorist coalition the policy making process and the system of interest intermediation the party system and electoral process the dynamics of regional politics (emphasizing Catalan, Basque and Galician nationalism) the political economy the external relations of the country within and towards the European Union, the Mediterranean and Latin America.

This book examines the role of culture in social change and Spanish democratisation post-Franco.

Having been fully revised and updated to reflect the considerable changes in Spain over the last decade, José M. Magone gives a fresh insight into the formal and informal workings of this dynamic southern European democracy. Thoroughly examining Spain's historical background, political culture, core political institutions and foreign policy making, each chapter provides a research-based overview of the studied topic which can then be used as the basis for further research by students. Key themes of the book include: recent history of Spain after Franco's death Spain's political culture, institutional framework and political economy foreign policy making; the reaction to the global anti-terrorist coalition and the Madrid bombings policy making process and the system of interest intermediation party system and electoral process the dynamics of regional/territorial politics and the Basque problem external relations with the European Union, the Mediterranean and Latin America constitutional reform immigration. New chapters to this edition: Interest groups and civil society Media and Politics Richly illustrated with maps and biographical details of key actors and presenting large amounts of statistical and quantitative data make this book an indispensable source of information for students, academics and the wider public interested in Spanish politics.

Can terrorism and state violence cause democratic breakdowns? Although the origins of violence have been studied, only rarely are its consequences. And even when the consequences of violence are studied, its effects are usually limited to consideration of preexisting conflict that originally spawned the violence. In *Terrorism and Democratic Stability*, Holmes claims that to understand the consequences of violence on democratic stability, terrorism and state responses to terrorism must be studied together. Her innovative approach identifies citizen support as a key factor in the state's ability to sustain democracy and achieve stability. Her focus is Uruguay, Peru, and Spain.

*The Triumph of Democracy in Spain* tells a gripping story of the tortuous creation of Spain's constitutional monarchy. The book provides an authoritative account of the tribulations of the forces of progress, beginning in 1969 with the disintegration of Franco's dictatorship and ending with the remarkable Socialist election victory in 1982.

*Historical Dictionary of Democracy* contains a chronology, an introduction, a glossary, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries. This book is an excellent resource for students, researchers, and anyone wanting to know more about democracy.
