David Irving, Holocaust denier, is a walking psychology case study in narcissism, chronic lying, cognitive dissonance, and willful ignorance. In British court, he sued historian Deborah Lipstadt for describing him as a Holocaust denier in her book.

History on Trial: My Day in Court with a Holocaust Denier ...

Part history, part real life courtroom drama, "History On Trial" is Lipstadt's riveting, blow-by-blow account of the trial that tested the standards of historical and judicial truths and resulted in a formal denunciation of a Holocaust denier, crippling the movement for years to come.

History on Trial: My Day in Court with a Holocaust Denier ...

Deborah Lipstadt's Denial: Holocaust History on Trial is an interesting, if sometimes flawed, book. As other reviewers have pointed out, it tells the tale of David Irving's 1996 libel complaint, filed in the U.K. against Deborah Lipstadt and her publisher, Penguin Books, and the subsequent 1999 trial. Lipstadt, in a 1993 book, Denying the Holocaust, had spent several hundred words describing Irving—a WW II historian (though not formally trained)—as a Holocaust denier and anti-Semite.

Denial : Holocaust history on trial / Deborah E. Lipstadt ...

I have read much criticism of this book most of which come from people intent on continuing to deny the Holocaust and then to make personal criticism of Deborah Lipstadt for her conduct in the trial. The basic tenets of Holocaust denial are that 1. there was no central plan to eliminate Jews and certainly nothing that directly implicates Hitler in these actions, 2. gas chambers were never used to murder Jews (or anyone else) at places like Auschwitz 3.

In her acclaimed 1993 book Denying the Holocaust, Deborah Lipstadt called David Irving, a prolific writer of books on World War II, "one of the most dangerous spokespersons for Holocaust denial", a conclusion she reached after closely examining his books, speeches, interviews, and other copious reco

In her acclaimed 1993 book Denying the Holocaust, Deborah Lipstadt called David Irving, a prolific writer of books on World War II, "one of the most dangerous spokespersons for Holocaust denial." The following year, after Lipstadt's book was published in the United Kingdom, Irving filed a libel suit against Lipstadt and her publisher. She prepared her defense with the help of a first-rate team of solicitors, historians, and experts, and a dramatic trial unfolded. Denial, previously published as History on Trial, is Lipstadt's riveting, blow-by-blow account of this singular legal battle, which resulted in a formal denunciation of a Holocaust denier that crippled the movement for years to come. Lipstadt's victory was proclaimed on the front page of major news- papers around the world, such as The Times (UK), which declared that "history has had its day in court and scored a crushing victory."

In her acclaimed 1993 book Denying the Holocaust, Deborah Lipstadt called David Irving, a prolific writer of books on World War II, "one of the most dangerous spokespersons for Holocaust denial." The following year, after Lipstadt's book was published in the United Kingdom, Irving led a libel suit against Lipstadt and her publisher. She prepared her defense with the help of a first-rate team of solicitors, historians, and experts, and a dramatic trial unfolded. Denial, previously published as History on Trial, is Lipstadt's riveting, blow-by-blow account of this singular legal battle, which resulted in a formal denunciation of a Holocaust denier that crippled the movement for years to come. Lipstadt's victory was proclaimed on the front page of major news- papers around the world, such as The Times (UK), which declared that "history has had its day in court and scored a crushing victory."

In her acclaimed 1993 book Denying the Holocaust, Deborah Lipstadt called putative WWII historian David Irving "one of the most dangerous spokespersons for Holocaust denial." A prolific author of books on Nazi Germany who has claimed that more people died in Ted Kennedy's car at Chappaquiddick than in the gas chambers at Auschwitz, Irving responded by filing a libel lawsuit in the United Kingdom -- where the burden of proof lies on the defendant, not on the plaintiff. At stake were not only the reputations of two historians but the record of history itself.

The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the "true victims" of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, "independent" research centers, and official publications that promote a "revisionist" view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

NATIONAL JEWISH BOOK AWARD FINALIST (2012) Part of the Jewish Encounter series The capture of SS Lieutenant Colonel Adolf Eichmann by Israeli agents in Argentina in May of 1960 and his subsequent trial in Jerusalem by an Israeli court electrified the world. The public debate it sparked on where, how, and by whom Nazi war criminals should be brought to justice, and the international media coverage of the trial itself, was a watershed moment in how the civilized world in general and Holocaust survivors in particular found the means to deal with the legacy of genocide on a scale that had never been seen before. Award-winning historian Deborah E. Lipstadt gives us an overview of the trial and analyzes the dramatic effect that the survivors' courtroom testimony—which was itself not without controversy—had on a world that had until then regularly commemorated the Holocaust but never fully understood what the millions who died and the hundreds of thousands who managed to survive had actually experienced. As the world continues to confront the ongoing reality of genocide and ponder the fate of those who survive it, this trial of the century, which has become a touchstone for judicial proceedings throughout the world, offers a legal, moral, and political framework for coming to terms with unfathomable evil. Lipstadt infuses a gripping narrative with historical perspective and contemporary urgency.

Based on exclusive access to many of the participants, the inside story of the trial that made headlines around the world by questioning the existence of the Nazi death camps during World War II urges readers to question what we can and do know about history. 25,000 first printing.

"The award-winning author of The Eichmann Trial and Denial: Holocaust History on Trial gives us a penetrating and provocative analysis of the hate that will not die, focusing on its current, virulent incarnations on both the political right and left, and on what can be done about it. When newsreels depicting the depredations of the Holocaust were shown in movie theaters to a horrified American public immediately after World War II, it was believed that the antisemitism that was part of the fabric of American culture in the 1920s and 1930s was finally going to be laid to rest. In the ensuing decades, Gregory Peck received an Academy Award for playing a journalist who passed as a Jew to blow the lid off genteel Jew hatred, clauses restricting where Jews could live were declared illegal, the KKK was pretty much litigated out of existence, and Joe Lieberman came within five electoral votes of becoming America's first Jewish vice president. And then the unthinkable began to happen. Over the last decade, there has been a noticeable uptick in antisemitic rhetoric and incidents by left-wing groups targeting Jewish students and Jewish organizations on American college campuses. Jews in countries throughout Europe have been attacked by terrorists. And the re-emergence of the white nationalist movement in America, complete with Nazi slogans and imagery, has brought to mind the fascist displays of the 1930s. Where is all this hatred coming from? Is there any significant difference between left-wing and right-wing antisemiism? What role has the anti-Zionist movement played? And what can be done to combat this latest manifestation of an ancient hatred? In a series of letters to an imagined college student and imagined colleague, both of whom are perplexed by this resurgence, Deborah Lipstadt gives us her own superbly reasoned, brilliantly argued, and sure-to-be-controversial responses to these troubling questions"--

Immediately after World War II, there was little discussion of the Holocaust, but today the word has grown into a potent political and moral symbol, recognized by all. In Holocaust: An American Understanding, renowned historian Deborah E. Lipstadt explores this striking evolution in Holocaust consciousness, revealing how a broad array of Americans—from students in middle schools to presidents of the United States—tried to make sense of this inexplicable disaster, and how they came to use the Holocaust as a lens to interpret their own history. Lipstadt weaves a powerful narrative that touches on events as varied as the civil rights movement, Vietnam, Stonewall, and the women's movement, as well as controversies over Bitburg, the Rwandan genocide, and the bombing of Kosovo. Drawing upon extensive research on politics, popular culture, student protests, religious debates and various strains of Zionist ideologies, Lipstadt traces how the Holocaust became integral to the fabric of American life. Even popular culture, including such films as Dr. Strangelove and such books as John Hersey's The Wall, was influenced by and in turn influenced thinking about the Holocaust. Equally important, the book shows how Americans used the Holocaust to make sense of what was happening in the United States. Many Americans saw the civil rights movement in light of Nazi oppression, for example, while others feared that American soldiers in Vietnam were destroying a people identified by the government as the enemy. Lipstadt demonstrates that the Holocaust became not just a tragedy to be understood but also a tool for interpreting America and its place in the world. Ultimately Holocaust: An American Understanding tells us as much about America in the years since the end of World War II as it does about the Holocaust itself.

This most complete study to date of American press reactions to the Holocaust sets forth in abundant detail how the press nationwide played down or even ignored reports of Jewish persecutions over a twelve-year period.

In ruling against the controversial historian David Irving in his libel suit against the American historian Deborah Lipstadt, last April 2000, the High Court in London labeled him a falsifier of history. No objective historian, declared the judge, would manipulate the documentary record in the way that Irving did. Richard J. Evans, a Cambridge historian and the chief advisor for the defense, uses this pivotal trial as a lens for exploring a range of difficult questions about the nature of the historian's enterprise. For instance, don't all historians in the end bring a subjective agenda to bear on their reading of the evidence? Is it possible that Irving lost his case not because of his biased history but because his agenda was unacceptable? The central issue in the trial -- as for Evans in this book -- was not the past itself, but the way in which historians study the past. In a series of short, sharp chapters, Richard Evans sets David Irving's methods alongside the historical record in order to illuminate the difference between responsible and irresponsible history. The result is a cogent and deeply informed study in the nature of historical interpretation.
