In a timely reminder of how the past informs the present, Baruch Kimmerling and Joel Migdal offer an authoritative account of the history of the Palestinian people from their modern origins to the Oslo peace process and beyond. Palestinians struggled to create themselves as a people from the first revolt of the Arabs in Palestine in 1834 through the British Mandate to the impact of Zionism and the founding of Israel. Their relationship with the Jewish people and the State of Israel has been fundamental in shaping that identity, and today Palestinians find themselves again at a critical juncture. In the 1990s cornerstones for peace were laid for eventual Palestinian-Israeli coexistence, including mutual acceptance, the renunciation of violence as a permanent strategy, and the establishment for the first time of Palestinian self-government. But the dawn of the twenty-first century saw a reversion to unmitigated hatred and mutual demonization. By mid-2002 the brutal violence of the Intifada had crippled Palestine's fledgling political institutions and threatened the fragile social cohesion painstakingly constructed after 1967. Kimmerling and Migdal unravel what went right--and what went wrong--in the Oslo peace process, and what lessons we can draw about the forces that help to shape a people. The authors present a balanced, insightful, and sobering look at the realities of creating peace in the Middle East.

Having turned phone sex into the subject of an astonishing national bestseller in Vox, Baker now outdoes himself with an outrageously arousing, acrobatically stylish "X-rated sci-fi fantasy that leaves Vox seeming more like mere fiber-optic foreplay" (Seattle Times). "Sparkling."--San Francisco Chronicle.

In this meticulously researched and iconoclastic work, Said Aburish, the internationally respected Palestinian political analyst and writer, turns the popular western perception of Yasser Arafat upside-down. Far from being the benign heroic freedom fighter who has kept the hopes of his displaced people alive, Arafat is revealed as a narrow-minded operator, out of touch with reality, whose personal ambitions and lack of understanding of democratic principles have made him a deterrent to real peace in the Middle East. Aburish exposes the unsound foundations of Arafat's leadership, and shows that his PLO has never been a revolutionary movement; rather Arafat and the PLO have always represented an elite group of Palestinian families who have grown ever more rich. Moreover, Aburish has discovered from hitherto silent but impeccable

sources that since 1963, when Arafat first established contact with the CIA in Beirut, the PLO has conducted a secret dialogue with the US, amounting to a betrayal of its people- in effect an agreement to avoid military or economic confrontation with Israel. Aburish goes on to demonstrate that, in his current role as President of the Palestinian Authority, Arafat has created one of the ugliest expressions of absolute dictatorship, even by Middle Eastern standards, in the world today. He concludes with a stimulating analysis of the likely future for Palestine and of the crucial world implications.

Security sector reform is at the top of the Palestinian reform agenda. Palestinians want effective and accountable security forces that respond to their security needs. For them, security sector reform is also necessary to advance Palestinian state-building. However, many political organizations and socio-economic challenges make change slow and difficult. Donors sometimes seek to influence the reform process in a direction that serves their own interests and overlooks Palestinian needs. This book gives a voice to the Palestinians, the intended beneficiaries of security sector reform. Palestinian security experts and practitioners propose concrete changes in the legal framework, the structure of the security forces, the mechanisms for oversight and accountability, and the management of armed groups. By highlighting various entry-points for security sector reform, this collection of Palestinian perspectives is a contribution to a better understanding of Palestinian needs and of the dire

Examines the public and private lives of the Palestinian leader, from his secret relations with the CIA to his relationship with Netanyahu

Mixing classic noir sensibilities with a searing futuristic vision of an age when death is nearly meaningless, Richard K. Morgan returns to his saga of betrayal, mystery, and revenge, as Takeshi Kovacs, in one fatal moment, joins forces with a mysterious woman who may have the power to shatter Harlan's World forever. Once a gang member, then a marine, then a galaxy-hopping Envoy trained to wreak slaughter and suppression across the stars, a bleeding, wounded Kovacs was chilling out in a New Hokkaido bar when some so-called holy men descended on a slim beauty with tangled, hyperwired hair. An act of quixotic chivalry later and Kovacs was in deep: mixed up with a woman with two names, many powers, and one explosive history. In a world where the real and virtual are one and the same and the dead can come back to life, the damsel in distress may be none other than the infamous Quellcris Falconer, the vaporized symbol of a freedom now gone from Harlan's World. Kovacs can deal with the madness of AI. He can do his part in a battle against biomachines gone wild, search for a three-centuries-old missing weapons system, and live with a blood feud with the yakuza, and even with the betrayal of people he once trusted. But when his relationship with "the" Falconer brings him an enemy specially designed to destroy him, he knows it's time to be afraid. After all, the guy sent to kill him is himself: but younger, stronger, and straight out of hell. Wild, provocative, and riveting, *Woken Furies* is a full-bore science fiction spectacular of the highest order—from one of the most original and spellbinding storytellers at work today.

An A-to-Z reference guide to the people, places, policies, and events significant during the presidency of Jimmy Carter.

A debut collection of thoughtful, introspective stories focuses on characters living in Jerusalem in the past, present, and future. Original. 30,000 first printing.

Identifies the Islamic political leader's direct influence on the Palestinian movement, noting his controversial and sometimes contradictory tactics, and citing his contributions to such events as the Camp David summit.

Hardbound. Arafat's Palestinian State and JIPTA details how a future Palestinian state with a sound Jordanian-Israeli-Palestinian trade agreement, complete with an acceptable structure for governance, would prepare the way for an expanded and more prosperous regional - 20 nation economic community.
