' I was pulled into simple living before I knew what it was. It crept up on me using the smallest of steps and didn't reveal its true beauty and real power until I was totally hooked. I was searching for a way to live well while spending very little money. What I found was a way of life that also gave me independence, opportunity and freedom.' Rhonda Hetzel gently encourages readers to find the pleasure and meaning in a simpler life, sharing all the practical information she has gathered on her own journey. Whether you want to learn how to grow tomatoes, bake bread, make your own soap and preserve fruit, or just be inspired to slow down and live more sustainably, Down to Earth will be your guide.

Rhonda Hetzel feels passionately that living simply leads to a richer, more fulfilling existence. Having made the decision to live frugally, embrace sustainability and opt out of the capitalist consumerist mindset, she set about working out how to achieve her goal, learning traditional skills, reducing her spending and environmental impact and focusing on the simple things that make life worth living: family, friends, and a home-cooked meal. This is the story of her journey and the lessons she has learned along the way. Rhonda relates why she wanted to change her lifestyle, what simple living means to her, and offers guidance to those thinking about taking the same path.

Nutritionists tell you to eat more fish. Environmentalists tell you to eat less fish. Apparently they are both right. It's the same thing with almonds, or quinoa, or a hundred other foods. But is it really incumbent on us as individuals to resolve this looming global catastrophe? From plastic packaging to soil depletion to flatulent cows, we are bombarded with information about the perils of our food system. Drawing on years of experience within the food industry, Anthony Warner invites us reconsider what we think we know. In Ending Hunger, he uncovers the parallels between eating locally and 1930s fascism, promotes the potential for good in genetic modification and dispels the assumption that population growth is at the heart of our planetary woes.

'Being in charge of your own life, and making decisions based on what you want to do rather than what you have to do, gives you a rare kind of contentment and shows you that every ordinary day offers magnificent opportunities.' Award-winning blogger Rhonda Hetzel shares the day-to-day practicalities of a simple life and shows you how to rediscover the heart of your home. With a year of monthly projects that make household management easier, Rhonda encourages you to set up good systems, make what you need and appreciate what you have. Learn how to stretch money further, safely clean your home and cook from scratch with 40 favourite recipes, including step-by-step guides to baking bread and making cheese. Whether you're part of a family, living alone or thinking about retirement, this is an inspiring, indispensable guide to slowing down, taking stock of your life and finding pleasure and satisfaction at home.

Apply the knowledge of The Secret to three key areas of your life with this 3-in-1 masterclass guide to attracting fulfilling relationships, the best health and more money from # 1 bestselling author Rhonda Byrne. In THE SECRET TO LOVE, HEALTH AND MONEY, Rhonda Byrne presents many inspiring examples of real-life cases from people who have used The Secret to achieve personal happiness, wellbeing and success. Subjects covered in Part 1 include the power of positive thoughts and feelings, gratitude in relationships, imagining the perfect partner, and the creative process for attracting new and better relationships. Part 2 features a series of focused and intensive lessons about topics including health and wellbeing, self-healing, overcoming chronic and incurable diseases, weight loss, the subconscious mind and the immune system and the placebo of positive thinking. Throughout the lessons, Rhonda explains in detail how the law of attraction applies specifically to health, as she offers vital tips and powerful processes such as visualization, affirmations, gratitude, and The Secret's famous creative process--ask, believe and receive. The Secret to Health Masterclass also features real-life stories of people who have used The Secret to overcome health crises such as tuberculosis, multiple sclerosis, epilepsy, cancer, autoimmune disease, chronic pain, depression and anxiety. Part 3 explains how the law of attraction applies specifically to wealth and your relationship with money. By applying the knowledge in The Secret, you can stop money from slipping through your fingers, and eliminate forever the perpetual state of "not having enough money." You will discover the power you have to bring money to you and to live a life of abundance, where you can be, do or have anything you want. Subjects covered by Rhonda include personal finance, eradicating a poverty mindset and adopting a wealth mindset, job hunting, career advancement, creating a successful business, and giving and sharing wealth. Rhonda also presents many inspirational real-life stories of people who have used The Secret to attract wealth, build a company, pay off debts, acquire a home and secure a high paying job. Using these powerful processes, you will experience first-hand the transformation that can happen across all areas of your life--in your relationships, health, finances, personal goals and dreams, and in your level of joy and happiness.

Greg Foyster quits his job in advertising and decides to live more simply. Looking for inspiration, he and his partner Sophie cycle from Melbourne to Far North Queensland (via Tasmania, naturally) scouting out ideas. Preposterously underprepared, they are propelled by the inspiring and eccentric characters they meet along the way ? from a forest activist living up a tree to an 18th-century woodsman and a monk walking barefoot through Queensland. Featuring eye-opening encounters with DIY downshifters and leading figures in sustainability,Changing Gears is a jaunty adventure that explores an important question for the future: can we be happier with less?

From Shannon Hayes, CFO of Sap Bush Hollow Farm, LLC and author of The Grassfed Gourmet (25K sales) and Radical Homemakers (25K sales), Redefining Rich is an outside-the-box approach to entrepreneurship that prioritizes living a truly rewarding life instead of constantly striving to "get ahead" in the conventional sense.

Venture capitalist John Doerr reveals a sweeping--and actionable--plan to conquer humanity's greatest challenge: climate change. In 2006, acclaimed investor John Doerr and his partners at Kleiner Perkins launched their first clean technology fund. They've backed more climate entrepreneurs than anyone else and have invested in a broad range of solutions, absorbing hard-earned lessons along the way. Fifteen years later, despite breakthroughs in batteries, electric vehicles, and solar and wind power, global warming continues to get worse. Its impact is all around us: droughts, floods, wildfires, the melting of the polar ice caps. Our world is squarely in a climate crisis and on the brink of a climate disaster. Yet despite our state of emergency, climate change has yet to be tackled with the consistency and urgency it requires. More than ever, we need a clear course of action. What if the goal-setting techniques that powered the rise of today's most innovative organizations were brought to bear on humanity's greatest challenge? Fueled by a powerful tool called Objectives and Key Results (OKRs), SPEED & SCALE offers an unprecedented global plan for cutting greenhouse gas emissions and preserving a habitable planet. Used by Google, Bono's ONE foundation, and startups the world over, OKRs have scaled ideas into achievements that changed the world. With clear-eyed realism and science-backed precision, Doerr identifies the OKRs we need to reduce emissions across every sector of the economy and to arrive by 2050 at net zero--the point where we are no longer adding to the heat-trapping carbon in the atmosphere. By turns pragmatic and inspiring, SPEED & SCALE intersperses Doerr's wide-ranging analysis with firsthand accounts from Jeff Bezos, Christina Figueres, Al Gore, Mary Barra, Bill Gates, and other intrepid policy leaders, entrepreneurs, scientists, and activists. A launchpad for those who want to act now, this book is geared to ambitious leaders of every kind. With a definitive plan, science, and a rising climate movement on our side, we can still reach net zero before it is too late. But as Doerr reminds us, there is no more time to waste.
