BASED ON NATURAL laws which govern all of creation, this book shatters the myth that success is the result of hard work, exacting plans, or driving ambition. In *The Seven Spiritual Laws of Success*, Deepak Chopra offers a life-altering perspective on the attainment of success: Once we understand our true nature and learn to live in harmony with natural law, a sense of well-being, good health, fulfilling relationships, energy and enthusiasm for life, and material abundance will spring forth easily and effortlessly. The 7 Laws of Enough is about the most radical kind of change, at the personal, organizational, and societal level: a shift from scarcity to sustainable abundance. These seven principles, pioneered by leadership consultants Gina LaRoche and Jennifer Cohen, guide readers on a transformational journey of self-discovery, towards new leadership strategies and a renewed sense of fulfillment and purpose. It starts with law number one: stories matter. We are all living in the story of scarcity—the story that tells us we don't have enough. We want more and more, perpetuating a vicious cycle of consumption that lowers our own well-being and irreparably damages the Earth. This book is an invitation to live in another story, the story of sustainable abundance. The ripples from making this shift are profound—it will change your relation to your loved ones, your work, and the planet. Essential for spiritual seekers, business leaders, and environmentalists alike, *The 7 Laws of Enough* points the way towards a new way of living and leading.

In Dave's humorous, touching, down-to-earth style, *The Seven Laws of Love* takes you on a journey through the ins and outs of everyday relationships—with your spouse, your children, your friends, and your coworkers—using practical, applicable examples and guiding principles that demonstrate what a life of love actually looks like. There is no higher calling on earth than to love and be loved. It's time to learn *The Seven Laws of Love*, and to make loving a priority over all other pursuits. Anything else isn't really living.

Part two offers many useful methods that can be employed in order to realize one's nature of Pure Being and change one's conditions and circumstances by working with the seven Hermetic Laws of Reality.

It begins with a simple analogy: if we see an empty field and a few weeks or months later we see streets, buildings, cars, houses we know there must have been a designer and an architect. We also know that there had to be engineers, builders, people who built the buildings, planted the trees, painted and prepared everything for living and business. In the same way we need to look at the world and realize there **MUST** be an overall designer who decided to create the universe and build each individual thing. The creator is G-d, who not only created everything but created each thing with love, thought and design - including every person and every child. The book continues, laying out each law in simple terms and showing how following the law leads to a safe and just society. The book finishes with a description of what will happen when people accept G-d as both the one who created and sustains the world - and then choose to follow his laws for mankind. The book is written in simple to understand poetry, in the style, level and complexity of the young
