Drafting for Corporate Finance: Concepts, Deals and Documents, Second Edition offers the legal, financial, business, accounting, and drafting information that lawyers must understand when it comes to corporate finance documentation, especially as it relates to debt. Drafting for Corporate Finance covers all the components of effective contract drafting, including: .contract structure, conditions precedent, representations and warranties, covenants and defaults .debt and lien, general business and financial covenants, and .amendment, control, and refinancing provisions. The book includes tips for risk-based review of contracts to avoid compromising drafting errors, and best practice guidelines. It also provides an introductory overview of the players and the instruments that make up corporate finance, and explains corporate structure issues, commitments, conditions, pricing and risk, liquidity support and credit support. The book outlines the basic rules of bankruptcy, describes the practical details of how deals are done, and discusses opinion practice and post-closing contract interpretation. The scope of the book makes it useful not only for lawyers but for other junior corporate finance professionals in banking or working for companies."

Drafting for Corporate Finance: What Law School Doesn't Teach You offers the legal, financial, business, accounting, and drafting information that lawyers must understand for corporate finance documentation, especially debt documentation.

1. 1 Investments, Generic Contracts, Payments According to Volume I, contracts are one of the five generic legal tools used to manage cash flow, risk, agency relationships, and information. Many investments are therefore based on one or more contracts. Obviously, the firm should draft good contracts. Good drafting can ensure the same intended cash flow with reduced risk. Bad drafting can increase risk. This volume

Download File PDF Drafting For Corporate Finance What Law School Doesn T Teach You

attempts to deconstruct contracts used by non-financial firms and analyse them from a cash flow, risk, agency, and information perspective. The starting point is a generic contract, i. e. a contract which does not belong to any particular contract type (Chapters 2–7). This volume will also focus on payment obligations. Payment obligations are characteristic of all financial instruments, and they can range from simple payment obligations in minor sales contracts and traditional lending contracts (Chapters 8– 11). 1. 2 Particular Contract Types A number of particular contract types have been discussed in the other volumes of this book. (1) A certain party's investment contract can be another party's fu- ing contract. Particular investment contracts will therefore be discussed in Volume III in the context of funding. (2) Many contracts are necessary in the context of business acquisitions discussed in Volume III. (3) Multi-party contracts are c- mon in corporate finance. The firm's contracts with two or more parties range from syndicated loans to central counterparties' contracts. Such contracts will be discussed both in Chapter 12 and Volume III.

Accounting and Corporate Finance for Lawyers introduces law students to the fundamental concepts of accounting and corporate finance. Students learn how to read and understand financial statements and footnotes, assess a company's financial position, and evaluate financial provisions and covenants in contracts. This book begins preparing students for success in the practice of law by providing the critical foundation of understanding accounting concepts and principles and the language of business people. Professors and students will benefit from: A reader-friendly organization and style Discussion and examples of how the principles are applied in practice Examples and exhibits that supplement the substance Exercises and problems designed to build a student's knowledge base

The definitive guide for navigating today's credit agreements Today's syndicated loan market and underlying credit agreements are far more complex than ever. Since the global financial crisis, the art of corporate loan syndications, loan trading, and investing in this asset class have changed dramatically. Lenders are more diverse, borrowers more demanding, and regulations more stringent. Consequently, the credit agreement has evolved, incorporating many new provisions and a host of revisions to existing ones. The LSTA's Complete Credit Agreement Guide brings you up to speed on today's credit agreements and helps you navigate these complex instruments. This comprehensive guide has been fully updated to address seven years of major change—which has all but transformed the loan market as we knew it. It provides everything you need to address these new developments, including what to look for in large sponsor-driven deals, the rise of “covenant lite” agreements for corporate borrowers seeking fewer covenant restrictions, Yankee Loans, other products resulting from globalization, and other product developments driven by the diversification of the investor class. You'll benefit from the authors' in-depth coverage of all the nuances of today's credit agreements, as well as their tips on how to protect your loan, manage defaults, and navigate cross-border deals. This reliable guide covers: o Commitments, Loans, and Letters of Credit o Interest and Fees o Amortization and Maturity o Conditions Precedent o Representations o Covenants o Guarantees and Security o Defaults and Enforcement o Interlender, Voting, and Agency issues o Defaulting Lenders o Assignments, Participations, and Disqualified Lender ListsBorrower Rights o Regulatory Developments Structuring and managing credit agreements has always been a difficult process – but now it's more complicated than ever. Whether you work for a company that borrows money in the syndicated loan market or for a bank, a hedge fund, pension fund, insurance company, or other financial institution, the LSTA's Complete Credit Agreement Guide puts you ahead of the curve of today's credit landscape.

This book analyzes how corporate finance decisions influence strategic competition and innovation of firms in the product market. We consider bank loan financing and venture capital financing. Due to asymmetric information, firms must sign special contracts with banks or venture capitalists. The financial contracts, in turn, determine the competitive strategies of firms in the product market. Firms compete in prices for market shares. In addition to that, firms invest in R&D in order to induce product or process innovation. We show that better access to financial resources improves a firm's market position and leads to a higher rate of innovation. Cash-rich firms may even decide to prey upon financially restricted rivals in order to prevent new market entry or to induce market exit. TOC:Introduction.- Financial Structure and Strategic Competition.- Credit Financing and Strategic Competition.- Venture Capital Financing and Strategic Competition.- Conclusion.

With the additional contribution of Look Chan Ho, an expert in the field of corporate finance, this thoroughly revised and updated second edition of Ferran's 'Principles of Corporate Finance Law' explores the relationship between law and finance.
