A complete compilation of the Webster Grove novellas: The New Girl, Under the Mistletoe, Secrets to Keep, Coming Out, and All Good Things. THE NEW GIRL: Seventeen-year-old Steph has her heart set on a new beginning... for the eleventh time. A move to Webster Grove introduces her to a new school, new friends, and new experiences- including a few tender glances from her sexy English teacher. After signing up for a costuming position on the school production of Romeo and Juliet, co-directed by none other than the gorgeous Mr. Rivera, Steph soon learns the difficulties of withstanding the pursuit of forbidden love. UNDER THE MISTLETOE It's beginning to look a lot like Christmas in Webster Grove, but seventeen-year-old Steph isn't in the mood to celebrate. When Mr. Rivera's attitude goes from bad to worse, Steph makes it her number one priority to help the Christmas Grinch rekindle his relationship with the holiday spirit. Meanwhile, Webster Grove High's newest student, Isaac Peyton, is raising the eyebrows of every girl in school, and keeping Steph on her toes with his questionable motives. With the days ticking by, all Steph wants is to turn a seemingly blue Christmas into a holiday she'll never forget... SECRETS TO KEEP: Secrets, secrets, are no fun! And with each day that passes in Webster Grove, eighteen-year-old Steph is learning that lesson the hard way. Between dodging stares, kisses, and mixed signals from the man of her dreams, Steph has more on her plate than she can handle. With wedding plans officially underway for the Rivera/Ghijk wedding, Steph is working overtime to lose weight and finally fit into her bridesmaid gown. And if all that's not enough, she's pulled into a lie that forces her to start holding up appearances with a new (fake) boyfriend. With her three best friends at her side and one beautiful man in her heart, Steph has to decide if happily ever after is worth the wait... COMING OUT: Eighteen-year-old Steph is facing many uncertainties, and the problems just keep piling up! Secrets from the past are slowly unraveling, close relationships are falling apart, and big revelations stand to test the strength of true friendships. Will love and forgiveness be enough to conquer all of the truths that are coming out? Steph can't find the answer, but she's praying she can figure it out before she leaves for Paris... if she decides to go at all. ALL GOOD THINGS: After five years of working side-by-side in Paris with one of the most esteemed fashion designers in the industry, twenty-three-year-old Steph Ghijk has packed her bags and returned to the States. Upon her arrival in the familiar town of Webster Grove, Steph takes on a directing position for the high school drama production - putting her in very close quarters with a man who hasn't quite forgiven her for her long overdue return. Unable to choose between her heart and her head, Steph is taking each day at a time... and hoping the love she once had will be the final love of her life.

Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center

A provocative, handpicked collection of relevant (and surprising) essential recipes for today's cook. We have countless recipes at our disposal today but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night, but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else: 100 Recipes Everyone Should Know How to Make. Organized into three recipe sections—Absolute Essentials, Surprising Essentials, and Global Essentials—each recipe is preceded by a thought-provoking essay that positions the dish. For example, Treating Pasta Like Rice Simplifies Everything; A Covered Pot Is a Surprisingly Good Place to Roast a Chicken; and Re-imagine Pie in a Skillet to Simplify the Process. You'll find useful weekday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff; genius techniques for producing amazing flavor—try poaching chicken breasts over a garlic-and-soy-spiked brine (trust us, it's that good); and familiar favorites reinvigorated—the best beef stew comes from Spain (and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography (shot right in the test kitchen) accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, 100 Recipes Everyone Should Know How to Make provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen. From the Hardcover edition.

Crockpot TODAY SPECIAL PRICE - 1001 Best Crock Pot Recipes of All Time (Limited Time Offer) Over 1,000 of Healthy and Delicious Crockpot Recipes with Easy-to-Follow Directions! The modern fast paced world we live in makes cooking a difficult task. Days go by incredibly fast with work, time spent in traffic, kids and family and sometimes mixing up a proper lunch or dinner is the last of our concerns. But don't you wish it was different? Don't you wish you could eat a nutritious meal every day without the hassle of mixing and supervising it above the stove? Let me tell you that it is possible and it has one answer - slow cooking! A crock pot resolves all your cooking problems regarding time and money and it is capable of allowing you to cook a wide range of recipes to satisfy the tastes of even the pickiest eaters. Collecting 1001 recipes between its pages, this book is an invaluable collection for both beginners and experts in slow cooking. No more blanching, boiling, simmering or roasting on the stove. Instead, just chop ingredients up and mix them in your crock pot then turn it on and allow it to do its magic! It's that simple and easy! Each recipe is straightforward and it requires easy to find ingredients, as well as some very basic cooking skills. Here's what you will find in this book: \* Amazing appetizers \* Rich and nutritious main dishes (vegetarian, chicken, pork and beef) \* Luscious desserts \* Delicious beverages Wait no more! Grab your copy today and change your life style and diet for good! No more junk food, no more extra money spent on restaurants, no more food that has no nutrients! Instead

Healthy meals made the slow cooker way America's Test Kitchen had a simple goal: Create quick and easy foolproof slow cooker recipes that taste as good as meals prepared on the stovetop or in the oven. They had one more stipulation: They wanted their selections to be healthy, not the fat-heavy main courses featured in many slow cooker cookbooks. It took nearly a year of testing, 1,500 recipes, and \$20,000 spent on groceries to find the finalists: 200 new, easy-to-make slow cooker recipes. True to its trusted source, the winning recipes collected here include delicious weekday and holiday meals; snacks, sides, and desserts.
