In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within these pages, Anita recounts stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. As part of a traditional Hindu family residing in a largely Chinese and British society, Anita had been pushed and pulled by cultural and religious customs since she was a little girl. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself . . . and that there are miracles in the Universe that she'd never even imagined. In *Dying to Be Me*, Anita freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being! This is a book that definitely makes the case that we are spiritual beings having a human experience . . . and that we are all One!

If life is about the journey and not the destination, could it be that this is heaven—this physical life we are living here on Earth? What we experience in our daily lives often feels like anything but heaven. But what if we understood how powerful we are—that we are powerful enough to mold both our internal and our external reality? Anita Moorjani, the New York Times bestselling author of *Dying to Be Me*, is convinced we can do exactly that. The process, she explains, requires dismantling many cultural myths mistaken for indisputable truths. Beliefs such as "We get what we deserve," "Loving ourselves is selfish," and "Coincidences are just that—coincidences," are ingrained within us from birth, pervasive and influential, leading to generations of misguidance. Following her near-death experience, Moorjani began to embody truths she learned in the other realm, discovering that letting go of these outmoded myths allowed her to experience heaven not as a physical place but as a state of mind, right here and right now. In this examination of our common myths, she shares stories and examples from her own life, revealing the lies beneath the surface of what she was taught and absorbed. By freeing ourselves from these falsehoods, Moorjani asserts, we can leave fear, heartache, and self-imposed boundaries behind and instead live lives full of purpose and joy.

The New York Times bestselling author of *Dying to Be Me* returns with "a gorgeous and powerful field guide to the empath living in today's wild world" (Laura Berman, PhD, author of *Quantum Love*) and how they can fully embrace their gifts of intuition and empathy. Empaths not only sense other people's emotions, but also absorb them—sometimes to their own disadvantage, often leading to overwhelming sensory overload and feelings of confusion or low self-esteem. Their willingness to help and please others might make them prey to opportunists or cause them to give away more energy than they can afford. But Anita Moorjani argues that it's possible to turn this onslaught of emotional burden into a powerful tool. In a time when traits like sensitivity, kindness, and compassion are sorely undervalued, Moorjani helps empaths—whether emerging or acknowledged—navigate obstacles they may face and identify what makes them unique. She teaches them how to claim their true powers as empaths and to be their most authentic selves. "Sensitive is the New Strong is a book that provides you with groundbreaking information, tools,

and exercises in understanding the challenges faced by empaths. You can learn how to protect your energy and thrive. A definite must-read for empaths and their loved ones" (Nick Ortner, New York Times bestselling author).

Dr Rajiv Parti was the last man to believe in heaven or hell - until he saw them with his own eyes. Dr Parti was a wealthy man of science with a successful career as the Chief of Anesthesiology at the Bakersfield Heart Hospital in California. He demanded the same success from his son, whose failures provoked episodes of physical abuse from Dr Parti. However, his fate was overturned in 2005, when he was diagnosed with cancer. During his seventh operation against the disease, dying from sepsis with a 105 degree fever, Dr Parti left his body and watched his own operation from the ceiling. What followed was a profound near-death experience, in which Dr Parti was met by archangels and his deceased father, who led him to witness both heaven and hell. From the angels, he learned lessons of spiritual health that they insisted he bring down to earth - to do so, Dr Parti knew he had to change his ways. After his near-death experience, Dr Parti awoke a new man. He gave away his mansion, quit his career, opened a wellness clinic and completely turned around his relationships with his family. In this remarkable true story of spiritual transformation, Dr Parti provides rare details of heaven, hell, the afterlife and angels. In sharing the lessons and eternal truths from the Divine that changed him forever, Dr Parti offers his audience the opportunity to attain peace and live a better life here on Earth.

Where is God when my suffering seems never-ending? Can I really find joy in this fallen world? This powerful book confronts these questions with stories of the author's near-death experience, a daughter's suicide attempt, mental illness, and numerous other gripping stories that demonstrate not only that God is present when we need him, but that through our trials we can find true intimacy with him. Author Randy Kay recounts how, as a former devout agnostic, he survived a near-fatal accident while searching for the truth--and when he met the One he sought to disprove, his journey changed from a life of extreme trials into one of genuine joy. In these pages, Kay offers his testimony to show readers how God uses suffering and brokenness to build an intimate and indestructible relationship with him, while breaking
