Gregory Bateson was a philosopher, anthropologist, photographer, naturalist, and poet, as well as the husband and collaborator of Margaret Mead. This classic anthology of his major work includes a new Foreword by his daughter, Mary Katherine Bateson. 5 line drawings.

"The compass's rocky evolution is charted with an enthusiast's passion...A fascinating adventure." —Bernadette Murphy, Los Angeles Times This is the rich history of the most important navigational device of all time, the magnetic compass, born of the need for a reliable means of negotiating treacherous sea routes around the globe. Compass chronicles the misadventures of those who attempted to perfect the instrument—so precious to sixteenth-century seamen that, by law, any man found tampering with one had his hand pinned to the mast with a dagger. Part history, part adventure, this book is a compelling tribute to human ingenuity—and the mysteries of the sea.

NEW YORK TIMES BESTSELLER • NOW A TNT ORIGINAL SERIES • "A first-rate tale of crime and punishment that will keep readers guessing until the final pages."—Entertainment Weekly "Caleb Carr's rich period thriller takes us back to the moment in history when the modern idea of the serial killer became available to us."—The Detroit News When The Alienist was first published in 1994, it was a major phenomenon, spending six months on the New York Times bestseller list, receiving critical acclaim, and selling millions of copies. This modern classic continues to be a touchstone of historical suspense fiction for readers everywhere. The year is 1896. The city is New York. Newspaper reporter John Schuyler Moore is summoned by his friend Dr. Laszlo Kreizler—a psychologist, or "alienist"—to view the horribly mutilated body of an adolescent boy abandoned on the unfinished Williamsburg Bridge. From there the two embark on a revolutionary effort in criminology: creating a psychological profile of the perpetrator based on the details of his crimes. Their dangerous quest takes them into the tortured past and twisted mind of a murderer who will kill again before their hunt is over. Fast-paced and riveting, infused with historical detail, The Alienist conjures up Gilded Age New

York, with its tenements and mansions, corrupt cops and flamboyant gangsters, shining opera houses and seamy gin mills. It is an age in which questioning society's belief that all killers are born, not made, could have unexpected and fatal consequences. Praise for The Alienist "[A] delicious premise . . . Its settings and characterizations are much more sophisticated than the run-of-the-mill thrillers that line the shelves in bookstores."—The Washington Post Book World "Mesmerizing."—Detroit Free Press "The method of the hunt and the disparate team of hunters lift the tale beyond the level of a good thriller—way beyond. . . . A remarkable combination of historical novel and psychological thriller."—The Buffalo News "Engrossing."—Newsweek "Gripping, atmospheric . . . intelligent and entertaining."—USA Today "A high-spirited, charged-up and unfailingly smart thriller."—Los Angeles Times "Keeps readers turning pages well past their bedtime."—San Francisco Chronicle

Andrés Caicedo's novel Liveforever is a wild celebration of youth, hedonism and the transforming power of music. María del Carmen Huerta lives a respectable middle-class life in Colombia. One day she misses class, and discovers she cannot return to her ordinary existence but must pursue her passion for dancing across the city. We follow her from rumbas in car parks to concerts in shantytowns as she gives in to every desire - however dark. Published in 1977, Liveforever was its young author's masterpiece - and final work. Andrés Caicedo took his life the day it was published, but it has been recognized as a landmark in Colombian literature ever since. Andrés Caicedo was born in Cali, Colombia on September 29, 1951. In his short life, he wrote dozens of articles on film, several plays, screenplays, novellas, and countless short stories, with a prominent focus on social discord. He committed suicide at the age of 25.

Set on the Caribbean coast of South America, this love story brings together Fermina Daza, her distinguished husband, and a man who has secretly loved her for more than fifty years.

Psychopath. The word conjurs up images of serial killers, rapists, suicide bombers, gangsters. But think again: you could probably benefit from being a little more psychopathic yourself. Psychologist Kevin Dutton has made a speciality of psychopathy, and is on first-name terms with many notorious killers. But unlike those incarcerated psychopaths, and all those depicted in movies and crime fiction, most are not violent, he explains. In fact, says Prof Dutton, they have a lot of good things going for them. Psychopaths are fearless, confident, charismatic and focused--qualities tailor-made for success in today's society. The Wisdom of Psychopaths is an intellectual rollercoaster ride that combines lightning-hot science with unprecedented access to secret monasteries, Special Forces training camps, and high-security hospitals. In it, you will meet serial killers, war heroes, financiers, movie stars and attorneys--and discover that beneath the hype and popular characterization, psychopaths have something to teach us. Like the knobs on a mixing deck, psychopathy is graded. And finding the right combination of psychopathic traits, sampled and mixed at carefully calibrated volumes, can put us ahead of the game.
