As multicultural education is becoming integral to the core curriculum, teachers often implement this aspect into their courses through literature. However, standards and criteria to teach and promote active discussion about this literature are sparse. Cultural Journeys provides these guidelines through the age-appropriate fiction and non-fiction works embedded in the book. With the example unit plans and extensive annotated bibliography, this book is a valuable resource that pre-service and in-service teachers will utilize throughout their careers.

Describes the philosophy of the Daily 5 teaching structure and includes a collection of literacy tasks for students to complete daily.

Provides information on how to use sustained silent reading and instruction in subject-specific vocabulary terms to attain academic achievement.

"The play-based learning and individualized strategies in this practical book build on the wide range of literacy skills present in the kindergarten classroom. This resource explores simple ways to use traditional learning centres to provide children with real and authentic reasons to listen, speak, read, write, and view. Teachers will find a wealth of resources for creating meaningful learning experiences, including: answers to often-asked questions; milestones to inform teaching instruction; activities and games for both individuals and groups, and literacy extensions that involve children with quality literature, authentic artifacts, and recordings This highly readable book will support teachers as they move beyond worksheets and nurture students on their journey to lifelong literacy."--Publisher.
