When health crises strike—measles, MERS, Zika, dengue, Ebola, pandemic flu—and the American people grow alarmed, the U.S. government springs into action. But all too often, when the crisis fades and fear subsides, urgency morphs

into complacency. Investments dry up, attention shifts, and a false sense of security takes hold. The CSIS Commission on Strengthening America's Health Security urges the U.S. government to replace the cycle of crisis and complacency that

This study systematically examines how states implement and comply with international environmental accords.

A solution to the problem of climate change requires close

# Download Free Ening Countries Strengthening

international cooperation and difficult reforms involving all states. Law has a clear role to play in that solution. What is not so clear is the role that law has played to date as a constraining factor on state conduct.

International Climate Change Law

# Download Free Ening Countries Strengthening

Measures for regulating the behaviour of nation states in relation to the global environment have increasingly taken the form of international treaties and conventions. Many have argued

## Insutional Innovation

# Download Free Ening Countries Strengthening

that this has proved to be an ineffective way of halting unsustainable development, for the provisions of these agreements are either too weak or are flouted regularly by the parties concerned. This volume seeks to address the crucial

question of how compliance with these agreements could be encouraged effectively without damaging the fragile political consensus that is emerging on environmental issues. With extensive use of case studies, Improving Compliance will make
