In Evangelist Marketing, Alex Goldfayn argues that technology companies succeed in spite of their marketing, not because of it. He says that if consumer tech makers ceased all marketing activity today, they would not see a significant decline in sales. In this book, Alex presents why the current state of overly-technical, features-oriented tech marketing, branding, communications and public relations is costing the industry billions of dollars/easy money that's voluntarily being left on the table. Then he lays out a step-by-step system for creating intensely loyal brand evangelists based on deep consumer insights and simple, emotional language. Evangelist Marketing is written for consumer tech companies big and small!from PC manufacturers to Web-based services. It's also sure to improve the work of their marketing and public relations agencies.

For decades, centuries even, when people thought of spirituality, they thought only of religion. I aim to stretch the tent of spirituality in this e-book to include secular experience. My particular approach to secular spirituality is through the medium of film. Characters in the 43 films I discuss come to spirituality without religion. In some of these films, religion nibbles at the edges of events, as when, in the Brazilian film Central Station, Dora, the cynical letter writer, leaves hard-bitten Rito with a boy she hopes to return to his father and finds herself surrounded by evangelicals, shrines, and churches. She does not have any kind of religious conversion, but there is no denying that the piety of the countryside softened her and escorted her into spirituality. Now and then I quote assorted Buddhists, Muslims, Christians and Jews, but usually only when their remarks throw light on secular matters. I have avoided relying on muddled mystics who write about the Great Turning Cosmic Oneness of Everything. I dont know what they are talking about.
