"An accessible and engaging exploration of the mysteries of time." -Brian Greene, author of *The Elegant Universe* Twenty years ago, Stephen Hawking tried to explain time by understanding the Big Bang. Now, Sean Carroll says we need to be more ambitious. One of the leading theoretical physicists of his generation, Carroll delivers a dazzling and paradigm-shifting theory of time's arrow that embraces subjects from entropy to quantum mechanics to time travel to information theory and the meaning of life. *From Eternity to Here* is no less than the next step toward understanding how we came to exist, and a fantastically approachable read that will appeal to a broad audience of armchair physicists, and anyone who ponders the nature of our world.

A novel of exuberance and ambition, spanning one thousand years of high-seas adventure, environmental and cultural catastrophe, and enduring love. "Mr. Eternity will be sizzling in my brain for a long time." -Lauren Groff *Key West*, 2016. Sea levels are rising, coral reefs are dying. In short, everything is going to hell. It's here that two young filmmakers find something to believe in: an old sailor who calls himself Daniel Defoe and claims to be five hundred and sixty years old. In fact, old Dan is in the prime of his life -- an incredible, perhaps eternal American life. The story unfolds over the course of a millennium, picking up in the sixteenth century in the Viceroyalty of New Granada and continuing into the twenty-sixth, where, in the future Democratic Federation of Mississippi States, Dan serves as an advisor to the King of St. Louis. Some things remain constant throughout the centuries, and being on the edge of ruin may be one. In 1560, the Spaniards have destroyed the Aztec and Inca civilizations. In 2500, we've destroyed our own: the cities of the Atlantic coast are underwater, the union has fallen apart, and cars, plastics, and air conditioning are relegated to history. But there are other constants too: love, humor, and old Dan himself, always adapting and inspiring others with dreams of a better life. An ingenious, hilarious, and genre-bending page-turner, *Mr. Eternity* is multiple novels in one. Together they form an uncommon work -- about our changing planet and its remarkable continuities.

This remarkable work offers an analytical exploration of the nature of divine eternity and God's relationship to time.

Can time be our friend? At first glance the question seems ridiculous, because the apparent scarcity of time is a constant source of stress in our busy lives. There are not enough hours in the day, we say as we collapse late at night. Deep down we know that we cannot go on like this. Father Stinnisan's book dares us to see time with new eyes. The insight that eternity is written in the depths of our hearts helps us to live in time in a way that leads us deeper into God's joy. We are like children in a land of fairy tales where everything is exciting and exploration never ends.We therefore should rejoice that everything around us is great and mysterious and that we can live in eternal wonder. His intention is not to explain what time is and thus take away its mystery. Instead, his aim is to show us how to see time from different perspectives and to discover how rich and multifaceted it is. Above all, he demonstrates how we can make use of the tremendous possibilities that time offers to us.

From "the world's greatest tour guide," a deeply-researched, captivating journey through the rich history of Christianity and the winding paths of the French and Italian countryside that will feed mind, body, and soul (New York Times). "What a wondrous work! This beautifully written and totally clear-eyed account of his pilgrimage will have you wondering whether we should all embark on such a journey, either of the body, the soul or, as in Egan's case, both." --Cokie Roberts "Egan draws us in, making us feel frozen in the snow-covered Alps, joyful in valleys of trees with low-hanging fruit, skeptical of the relics of embalmned saints and hopeful for the healing of his encrusted toes, so worn and weathered from their walk."--The Washington Post Moved by his mother's death and his Irish Catholic family's complicated history with the church, Timothy Egan decided to follow in the footsteps of centuries of seekers to force a reckoning with his own beliefs. He embarked on a thousand-mile pilgrimage through the theological cradle of Christianity to explore the religion in the world that it created. Egan sets out along the Via Francigena, once the major medieval trail leading the devout to Rome, and travels overland via the alpine peaks and small mountain towns of France, Switzerland and Italy, accompanied by a quirky cast of fellow pilgrims and by some of the towering figures of the faith--Joan of Arc, Henry VIII, Martin Luther. The goal: walking to St. Peter's Square, in hopes of meeting the galvanizing pope who is struggling to hold together the church through the worst crisis in half a millennium. A thrilling journey, a family story, and a revealing history. A Pilgrimage to Eternity looks for our future in its search for God.
