What Every Child Should Know is a modern children's book that radically instills awareness of social justice issues and community care within traditional children picture book storytelling. Written by Lark Sontag, education and literary activist known for her work with the Blk Grrrl Book Fair and Will Start Small, What Every Child Should Know inspires children to grow up to believe in the kind of world they deserve is possible through acceptance, social cooperation, and, most importantly, action. Covering important movements such as "Black Lives Matters" and "Water Is Life" as well as instilling an understanding of a world that is borderless, nonbinary, neurodiverse, and accepting of differences, this is a book that every parent, guardian, and early childhood educator who is striving towards equity will reach for time and time again. About the Author Lark Sontag is a fiction writer and educator based in New York. About the Designer Danae Silva Montiel is an artist and writer based in Quintana Roo.

Genius is not just about intelligence and aptitude, it's also a word that embodies our inner soul, nature, or character. In this illuminating book, a former principal and father shares heartwarming stories and wise advice that offers a rare insight into children and the process of education. The Genius in Every Child celebrates the moments in the lives of children, their parents, and their teachers. The stories of unique characters in action illustrate some of the principles of education and the disciplines we need to be good stewards of our children's character and intellect. The vignettes provide both delight and enjoyment in the miracle of it all, and perspective and solace in the difficulty of it all, encouraging parents and teachers to work hand-in-hand. This book urges parents to focus on the long run, entrusting the trials, struggles, and sufferings of the short run to the kids. It proposes a shift in

focus from test scores to enthusiasm, from perfect behavior to learning from mistakes, from measuring up to making something of yourself, from independence to interdependence, from goodness to integrity, from fear to love. The value of this experience to hundreds of children, parents, and teachers derives from the depth of Rick Ackerly's perception and the subtlety of his understanding. He offers perspective and guidance on a wide range of challenges faced by parents of today's school-aged children, including: self-confidence, discipline, boundary-setting, building character, integrity, taking responsibility, facing challenges, handling disappointment, peer pressure, reading, testing, homework, academic achievement, failure, and success. [Excerpt] Mr. Rick's Words of Wisdom Children need teachers at school and parents at home. Failure is at least as powerful an educator as success. Kids need consequences and they need forgiveness We put our kids at risk by trying to engineer their success. Our children need us to have confidence in them. The core of building character is taking responsibility. If we are open to the surprise, we can let them educate us.

"Korczak's words resonate across the years and have amazing modern-day relevance."—Jim Harding, director of the National Society for the Prevention of Cruelty to Children Born in Poland in 1878, educator, physician, and legendary child advocate Janusz Korczak believed that simply understanding children is the key to being able to take care of them. It's a basic premise too often overlooked. This collection of one hundred quotations and passages from Korczak's writings provides valuable advice on how to take care of, respect, and love every child. In an inviting gift-book format, this is a heartfelt and helpful reminder of who we were as children and who we might become as parents.

Like most parents, Amy and Jeffrey Olrick left the hospital with their first child desperate to know, "What do we do?" But years of parenting three kids and Jeffrey's work as a child psychologist convinced them to ask a better question: "How shall I be with this new person?" In a culture obsessed with parenting formulas, it's easy to miss the fact that science and lived experience have proven that human development and thriving are a matter of relationship. Drawing on decades of psychological research, neuroscience, and their own experience as parents and people of faith, the Olricks present six relational needs for human growth that will transform the way you think about your child--and yourself. Together, the needs form a trustworthy compass to guide you and your child to a path of purpose and relational wholeness. For parents who feel pulled in a hundred directions, dizzied by the

volume of clashing strategies, and jaded by the parenting programs that complicated their own childhoods, *The 6 Needs of Every Child* is a groundbreaking roadmap integrating the science of connection with practical tools. You'll be equipped with: An in-depth look at the six essentials your child needs to thrive Tools to use when you feel stuck The secret to secure connection with your child Self-assessment tools to discern your unique parenting style More than a parenting guide, this book is your invitation to break free from the myth of perfect parenting and embrace your child's long journey of growth. With insight, humor, and compassion, it calls parents to discover the power of being imperfectly present with their children, developing mental, emotional, and spiritual resilience that will sustain them for a lifetime.

Sometimes the traits and behaviors that seem most frustrating and annoying in our children are indicators of positive strengths and future success. Stubbornness can be steadfastness. A strong will may exhibit leadership material. Arguing may indicate negotiating skills. When we identify the behavior in each child and see beyond it to the positive strength it contains, we will then be able to help him succeed by working with his learning style.
