Much has been written in the past two centuries about George Washington the statesman and “ father of his country. ” Less often discussed is Washington ’ s military career, including his exploits as a young officer and his performance as the Revolutionary War commander in chief. Now, in a revealing work of historical biography, Edward Lengel has written the definitive account of George Washington the soldier. Based largely on Washington ’ s personal papers, this engrossing book paints a vivid, factual portrait of a man to whom lore and legend so tenaciously cling. To Lengel, Washington was the imperfect commander. Washington possessed no great tactical ingenuity, and his acknowledged “ brilliance in retreat ” only demonstrates the role luck plays in the fortunes of all great men. He was not an enlisted man ’ s leader; he made a point of never mingling with his troops. He was not an especially creative military thinker; he fought largely by the book. He was not a professional, but a citizen soldier, who, at a time when warfare demanded that armies maneuver efficiently in precise formation, had little practical training handling men in combat. Yet despite his flaws, Washington was a remarkable figure, a true man of the moment, a leader who possessed a clear strategic, national, and continental vision, and who inspired complete loyalty from his fellow revolutionaries, officers, and enlisted men. America could never have won freedom without him. A trained surveyor, Washington mastered topography and used his superior knowledge of battlegrounds to maximum effect. He appreciated the importance of good allies in times of crisis, and understood well the benefits of coordination of ground and naval forces. Like the American nation itself, he was a whole that was greater than the sum of its parts—a remarkable everyman whose acts determined the course of history. Lengel argues that Washington ’ s excellence was in his completeness,

in how he united the military, political, and personal skills necessary to lead a nation in war and peace. At once informative and engaging, and filled with some eye-opening revelations about Washington, the war for American independence, and the very nature of military command, General George Washington is a book that reintroduces readers to a figure many think they already know.

Narrated by a longtime New York City ward boss, this volume reveals the successful application of corrupt practices such as patronage-based appointments and the exercise of power for personal gain.

To many, the task of writing about one's life seems daunting and difficult. Where does one begin? What stories will inspire your children and grandchildren, and which will simply amuse them? "The day will come when not only my writings, but precisely my life--the intriguing secret of all the machinery--will be studied and studied." Søren Kierkegaard's remarkable combination of genius and peculiarity made this a fair if arrogant prediction. But Kierkegaard's life has been notoriously hard to study, so complex was the web of fact and fiction in his work. Joakim Garff's biography of Kierkegaard is thus a landmark achievement. A seamless blend of history, philosophy, and psychological insight, all conveyed with novelistic verve, this is the most comprehensive and penetrating account yet written of the life and works of the enigmatic Dane who changed the course of intellectual history. Garff portrays Kierkegaard not as the all-controlling impresario behind some of the most important works of modern philosophy and religious thought--books credited with founding existentialism and prefiguring postmodernism--but rather as a man whose writings came to control him. Kierkegaard saw himself as a vessel for his writings, a tool in the hand of God, and eventually as a martyr singled out to call for the end of "Christendom." Garff explores the events and relationships that formed Kierkegaard, including his guilt-ridden relationship with his father, his rivalry with his brother, and his famously tortured relationship with his fiancée Regine Olsen. He recreates the squalor and splendor of Golden Age Copenhagen and the intellectual milieu in which Kierkegaard found himself increasingly embattled and mercilessly caricatured. Acclaimed as a major cultural event on its publication in Denmark in 2000, this book, here presented in an exceptionally crisp and elegant translation, will be the definitive

In this enormously engaging, vibrant, and richly researched biography of Albert Camus, the French writer and journalist Olivier Todd has drawn on personal correspondence, notebooks, and public records never before tapped, as well as interviews with Camus's family, friends, fellow workers, writers, mentors, and lovers. Todd shows us a Camus who struggled all his life with irreconcilable conflicts--between his loyalty to family and his passionate nature,

Read Book Example Of Biography Paper

between the call to political action and the integrity to his art, between his support of the native Algerians and his identification with the forgotten people, the poor whites. A very private man, Camus could be charming and prickly, sincere and theatrical, genuinely humble, yet full of great ambition. Todd paints a vivid picture of the time and place that shaped Camus--his impoverished childhood in the Algerian city of Belcourt, the sea and the sun and the hot sands that he so loved (he would always feel an exile elsewhere), and the educational system that nurtured him. We see the forces that lured him into communism, and his attraction to the theater and to journalism as outlets for his creativity. The Paris that Camus was inevitably drawn to is one that Todd knows intimately, and he brings alive the war years, the underground activities that Camus was caught up in during the Occupation and the bitter postwar period, as well as the intrigues of the French literati who embraced Camus after his first novel, *L'Etranger*, was published. Todd is also keenly attuned to the French intellectual climate, and as he takes Camus's measure as a successful novelist, journalist, playwright and director, literary editor, philosopher, he also reveals the temperament in the writer that increasingly isolated him and crippled his reputation in the years before his death and for a long time after. He shows us the solitary man behind the mask--debilitated by continuing bouts of tuberculosis, constantly drawn to irresistible women, and deeply troubled by his political conflicts with the reigning French intellectuals, particularly by the vitriol of his former friend Sartre over the Algerian conflict. Filled with sharp observations and sparkling with telling details, here is a wonderfully human portrait of the Nobel Prize-winning writer, who died at the age of forty-six and who remains one of the most influential literary figures of our time.
