Lo explain to them in meetings and advertise those meetings by prominently posting notices in a similar commit ment.

Classic Books Library presents this brand new edition of “ The Federalist Papers ” , a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “ The Federalist ” , as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755 – 1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation ' s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

This practical guide offers students advice on writing essays and carrying out historical research. It explores the research processes, different forms of historical writing and includes tips for improving style. The text stresses the importance of using primary sources.

The Spanish Civil War, begun in July 1936, was a preliminary round of World War II. Hitler's and Mussolini's cooperation with General Franco resulted in the Axis agreement of October 1936 and the subsequent Pact of Steel of May 1939, immediately following the end of the Civil War. This study presents comprehensive documentation of Hitler's use of the upheaval in Spain to strengthen the Third Reich diplomatically, ideologically, economically, and militarily. While the last great cause drew all eyes to Western Europe and divided the British and especially the French internally, Hitler could pursue territorial gains in Eastern Europe. This book, based on little-known German records and recently opened Spanish archives, fills a major gap in our understanding of one of the 20th century's most significant conflicts. Its comprehensive treatment of German-Spanish relations from 1936 through 1939, bringing together diplomatic, economic, military, and naval aspects, will be of great value to specialists in European diplomacy and the political economy of Nazi imperialism, as well as to all students of the Spanish Civil War.

useful for UPSC, IAS, PCS, Civil Services, related Govt Recruitment Exams.

An eloquent odyssey through Spain's dark history journeys into the heart of the Spanish Civil War to examine the causes and consequences of a painful recent past, as well as its repercussions in terms of the discovery of mass graves containing victims of Franco's death squads and the lives of modern-day Spaniards. Reprint.

This volume presents a selection of slightly revised versions of papers from the third International Conference on the History of the Language Sciences (ICHoLS III), Princeton, 1984. The papers are organized under the following headings: I Generalia; II Classical Period; III Medieval Period; IV Renaissance; V 17th Century; VI 18th Century; VII 19th Century, and VIII 20th Century.Contributors include W. Written over a period of twenty years the papers included here reflect the changing circumstances around the study of accounting history.

General Francisco Franco came to prominence during the days of David Lloyd George and Woodrow Wilson and was able to cling to absolute political power until his death in 1975. Over his fifty-year career, he became one of the four dictators who changed the face of Europe during the twentieth century. Franco joined the Spanish Army when he was barely fifteen years old. In 1926 he became the youngest general in Europe and, driven by an astonishing sense of his own greatness, was recognized as sole military commander of the Nationalist zone during the Spanish Civil War. His ambition was always to hold on to the power that he had secured. In practice, this meant winning the Spanish Civil War and surviving the fall of the fascist regimes of Hitler and Mussolini and the international isolation that followed their defeat. But behind the military heroics and dexterous political footwork lay an insecure and vengeful man, wracked by contradictory impulses. Although fueled by a single-minded determination to succeed, he was full of self-doubt. A bold and sometimes inspirational soldier in Africa, he became an indecisive, hesitant military commander during the Civil War. Filled with a burning conviction that his destiny was bound up with the medieval kings of Spain and God Himself, he appeared shy, withdrawn, and humble. Ruthlessly intent on wiping out all political opposition, he denied heatedly that he was a dictator. A stubborn man, he could be remarkably flexible when it came to safeguarding his power. Gabrielle Ashford Hodges' psychological biography considers Franco's mental state, as well as his political motivation. In doing so, it succeeds admirably in getting under the skin of Europe's most enduring dictator.
