Andre Lepecki, Exhausting Dance: Performance and the Politics of Movement (New York and London: Routledge, 2006) This is a challenging book both for the rigour and breadth of its erudition and for the nature of its broader argument concerning the politics of the (ontological) 'bind between dance and movement'.

The only scholarly book in English dedicated to recent European contemporary dance. Exhausting Dance: Performance and the Politics of Movement examines the work of key contemporary choreographers who have transformed the dance scene since the early 1990s in Europe and the US. Through their vivid and explicit dialogue with performance art, visual arts and critical theory from the past thirty years, this new generation of choreographers challenge our understanding of dance by exhausting the concept of movement. Their work demands to be read as performed extensions of the radical politics implied in performance art, in post-structuralist and critical theory, in post-colonial theory, and in critical race studies. In this far-ranging and exceptional study, Andre Lepecki brilliantly analyzes the work of the choreographers: * Jerome Bel (France) * Juan Dominguez (Spain) * Trisha Brown (US) * La Ribot (Spain) * Xavier Le Roy (France-Germany) * Vera Mantero (Portugal) and visual and performance artists: * Bruce Nauman (US) * William Pope.L (US). This book offers a significant and radical revision of the way we think about dance, arguing for the necessity of a renewed engagement between dance studies and experimental artistic and philosophical practices.

How does the production of performance engage with the fundamental issues of our advanced neo-capitalist age? Andr   Lepecki surveys a decade of experimental choreography to uncover the dual meaning of ' performance ' in the twenty-first century: not just an aesthetic category, but a mode of political power. He demonstrates the enduring ability of performance to critique and subvert this power, examining this relationship through five ' singularities ' in contemporary dance: thingness, animality, persistence, darkness, and solidity. Exploring the works of Mette Ingvartsen, Yvonne Rainer, Ralph Lemon, J  rme Bel and others, Lepecki uses his concept of ' singularity ' —the resistance of categorization and aesthetic identification—to examine the function of dance and performance in political and artistic debate.

Offers fresh histories & theoretical inquiries that resonate across fields of the humanities. Sixteen essays range from 18th-century theatre dance to popular contemporary dances in global circulation, focusing on three major thematic areas: Weimar culture & its afterlife, the German Democratic Republic, & recent conceptual trends in theatre dance.

Writing at the dynamic intersection of dance and performance studies. Of the Presence of the Body gathers nine original essays by eminent scholars in the fields of dance and performance studies. Its focus is the historical, cultural and political contexts that inform choreographic and dance practices and critical readings of dance—in other words, how dance operates as critical discourse. The question that runs throughout the essays is the theoretical and political problem of "how dances come to be seen," how the presence of the body leaves its mark on critical theories and performances. Focusing exclusively on 20th century dance, the interdisciplinary perspectives range from history to race studies, deconstruction, Marxist theory, feminist theory, literary studies and feminist ethnography. The anthology provides an overview of the current methodologies and theoretical developments in the field of dance studies. These essays expand our understanding of the performing body, and their organization around the epistemological problem in dance studies—the dynamics of seeing, remembering and writing—will make the collection useful for classes in dance criticism and theory, cultural theory, performance studies, and aesthetics. CONTRIBUTORS: Barbara Browning, Ramsey Burt, Thomas De Frantz, Mark Franko, Andr   Lepecki, Karmen MacKendrick, Susan Manning, Randy Martin, Peggy Phelan.

This ground-breaking anthology is the first to be dedicated to assessing critically the role of the human sensorium in performance. Senses in Performance presents a multifaceted approach to the methodological, theoretical, practical and historical challenges facing the scholar and the artist. This volume examines the subtle actions of the human senses including taste, touch, smell and vision in all sorts of performances in Western and non-Western traditions, from ritual to theatre, from dance to interactive architecture, from performance art to historical opera. With eighteen original essays brought together by an international ensemble of leading scholars and artists including Richard Schechner and Philip Zarrilli. This covers a variety of disciplinary fields from critical studies to performance studies, from food studies to ethnography from drama to architecture. Written in an accessible way this volume will appeal to scholars and non-scholars interested in Performance/Theatre Studies and Cultural Studies.

The Routledge Companion to Dance Studies maps out the key features of dance studies as the field stands today, while pointing to potential future developments. It locates these features both historically—within dance in particular social and cultural contexts—and in relation to other academic influences that have impinged on dance studies as a discipline. The editors use a thematically based approach that emphasizes that dance scholarship does not stand alone as a single entity, but is inevitably linked to other related fields, debates, and concerns. Authors from across continents have contributed chapters based on theoretical, methodological, ethnographic, and practice-based case studies, bringing together a wealth of expertise and insight to offer a study that is in-depth and wide-ranging. Ideal for scholars and upper-level students of dance and performance studies. The Routledge Companion to Dance Studies challenges the reader to expand their knowledge of this vibrant, exciting interdisciplinary field.

From Bustle columnist and Twitter sensation Sophia Benoit, this "charming and often laugh-out-loud funny" (Vogue) memoir-in-essays explores the ins and outs of modern womanhood—from finding feminism, the power of pop culture, and how to navigate life ' s constant double standards—perfect for fans of Strill and PEN15. Like so many women, Sophia spent her formative years struggling to do the " right " thing—to make others comfortable, to take minimal and calculated risks, to live up to society ' s expectations—only to realize that there was so little payoff to this tiresome balancing act. Tired of trying so hard, Sophia finally let go of the crushing pressure to be perfect. She navigates the highs and lows of the dating world (high being a beta tester for Bumble; low: hastily shaving her legs before a hotel hookup and getting blood all over the sheets), and walks the line between being a " chill " girl and making sure her boyfriend ' s nonchalance about altitude sickness doesn ' t get him killed. She learns what it means to be a feminist, how to embrace her own voice, and when to listen to women who have been through more and have been doing the work longer. With topics ranging from how to be the life of the party (even when you have crippling anxiety), to an ill-fated consultation with a dietician who deemed Sophia ' s overindulgence in ketchup a serious health risk, to a masterful argument for why no one should judge you for having an encyclopedic knowledge of reality TV, Well, This Is Exhausting is not only " one of the funniest books you ' ll read this year, but it ' s also one of the most important " (Shondaland).

An investigation of dance and choreography that views them not only as artistic strategies but also as intrinsically theoretical and critical practices. The choreographic stages a conversation in which artwork is not only looked at but looks back; it is about contact that touches even across distance. The choreographic moves between the corporeal and cerebral to tell the stories of these encounters as dance trespasses into the discourse and disciplines of visual art and philosophy through a series of stutters, steps, trembles, and spasms. In The Choreographic, Jenn Joy examines dance and choreography not only as artistic strategies and disciplines but also as intrinsically theoretical and critical practices. She investigates artists in dialogue with philosophy, describing a movement of conceptual choreography that flourishes in New York and on the festival circuit. Joy offers close readings of a series of experimental works, arguing for the choreographic as an alternative model of aesthetics. She explores constellations of works, artists, writers, philosophers, and dancers, in conversation with theories of gesture, language, desire, and history. She choreographs a revelatory narrative in which Walter Benjamin, Pina Bausch, Francis Alys, and Cormac McCarthy dance together; she traces the feminist and queer force toward desire through the choreography of DD Dorvilleier, Heather Kravas, Meg Stuart, La Ribot, Miguel Gutierrez, luciana achugar, and others; she maps new forms of communicability and pedagogy; and she casts science fiction writers Samuel R. Delany and Kim Stanley Robinson as perceptual avatars and dance partners for Ralph Lemon, Marianne Vitali, James Foster, and Janet Cardiff and George Bures Miller. Constructing an expanded notion of the choreographic, Joy explores how choreography as critical concept and practice attunes us to a more productively uncertain, precarious, and ecstatic understanding of aesthetics and art making.

This book investigates how contemporary artistic practices engage with the body and its intersection with political, technological, and ethical issues. Departing from the relationship between corporeality and performing arts (such as theater, dance, and performance), it turns to a pluriversal understanding of embodiment that resides in the extra violent conditions of contemporary global necro-capitalism in order to conduct a thorough analysis that goes beyond arts and culture. It brings together theoretical academic texts by established and emerging scholars alike, exposing perspectives form different fields (philosophy, cultural studies, performance studies, theater studies, and dance studies) as well as from different geopolitical contexts. Through a series of thematic clusters, the study explores the reactivation of the body as a site of a new meaning-making politics.
