paleoanthropology, and modern human biological variation.

This full color lab manual is intended to be used primarily as a text for an introductory laboratory course in physical anthropology but also can serve as a supplementary text or workbook for a lecture class, particularly in the absence of a laboratory offering. Because it provides numerous photos and illustrations, it can be used with a minimum of laboratory materials. This lab manual enables a hands-on approach to learning about the evolutionary processes that resulted in humans through the use of numerous examples and exercises. It offers solid grounding in the main areas of an introductory physical anthropology lab course: genetics, evolutionary forces, human osteology, forensic anthropology, comparative/functional skeletal anatomy, primate behavior, paleoanthropology, and now, in this new edition, modern human biological variation and fossil dating techniques have been added.

Genetic Ancestry focuses on the scientific nature and limitations of genetic ancestry testing. Co-authored by a genetic anthropologist and a cultural anthropologist, it examines the social, historical, and cultural dimensions of how people interpret genetic ancestry data. Utilizing examples from popular culture around the world and case studies from the Caribbean, the chapters highlight how genetic technology can sometimes bolster racial thinking and serve as tool of resistance and social justice.

An illustrated guide for the complex process of orthodontic diagnostics and indication. The total process of treatment planning including the scientific bases is pictorially described. Beside the conventional methods of examination and model analysis, emphasis is placed on the cranio-facial growth processes, the aetiology of malocclusions and on the importance of functional analysis. The following three aspects are described in detail in this book: Growth of the Facial Skeleton - types of treatment which promote or guide growth. In order to control these natural processes artificially, a precise understanding of them is required. Aetiology of the Malocclusion - the various types of causative therapy and the elimination of the causes. Functional Analysis - many
