Charles Cornick, the leader of the North American werewolves, is sent to Boston with Anna Latham to assist the FBI in tracking down a serial killer who is targeting their kind.

They say opposites attract, and for werewolves Anna and Charles, this is certainly true. Charles, the pack enforcer, is a dominant alpha - whereas Anna has the power to calm others of her kind. Now that werewolves have dared to reveal themselves to humans, it's their job to keep the pack in line. The pressure mounts when the FBI requires Charles' assistance. He's sent on a mission to Boston with Anna, and they quickly realise that a serial killer is targeting werewolves. And that they're next on the killer's list.

The eighth book in the bestselling Dan 'Spider' Shepherd series. Kidnapping is one of the cruellest crimes - lives are put at risk for cold, hard cash. But when Somali pirates seize the crew of a yacht off the coast of Africa, they bite off more than they can chew. One of the hostages has friends in high places and Spider Shepherd is put on the case. He goes deep undercover in an audacious plan to bring an end to the pirate gang's reign of terror. But as Shepherd closes in on his quarry he realises that there's much more at stake than the lives of the hostages and that the pirates are involved in a terrorist plot that will strike at the heart of London.

Clare Randall has a problem with her boyfriend and a lazy San Francisco Sunday to think it over. That's the Sunday she helps a passing stranger pick up the papers he's dropped from his briefcase. From then on Clare's problems got bigger and more dangerous. Someone puts a hole in her arm with a silenced gun in a crowded street. Is it the same someone who put the bomb in her apartment? The cop assigned to her case is Lieutenant Malchek, an ex-Vietnam sniper who now specialises in hit-men and contract killers. Maybe the man who dropped the papers was someone special. Maybe he's got Clare on his list.

As astonishing as it is compelling -- Steve Cannane's extraordinary insight into Scientology in Australia is investigative journalism at its very best. From Rugby League players trying to improve their game, to Hollywood superstars and the depressed sons of media moguls, Scientology has recruited its share of famous Australians. Less known is that Australia was the first place to ban Scientology, or that Scientology spies helped expose the Chelmsford Deep Sleep Scandal. Numerous Australians have held senior posts in the organisation only to fall foul of the top brass and lose their families as a result. Based on years of interviews and research, Walkley Award-winning journalist Steve Cannane tells for the first time the fascinating story of Australia's vital involvement with this powerful, secretive and punitive cult.

A REESE'S BOOK CLUB PICK "A hands-on, real talk guide for navigating the hot-button issues that so many families struggle with."--Reese Witherspoon Tired, stressed, and in need of more help from your partner? Imagine running your household (and life) in a new way... It started with the Sh\*t I Do List. Tired of being the "shefaul" parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family -- and then sent that list to her husband, asking for things to change. His response was... underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough. She needed a solution to this universal problem. Her sanity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up chores and responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With four easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore from laundry to homework to dinner. "Winning" this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space -- as in, the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.
