Fascism: A Warning: Amazon.co.uk: Albright, Madeleine ...

In **Fascism: A Warning**, Albright weaves her personal history with the history of the rise of fascism in Italy with Benito Mussolini and in Germany with Adolf Hitler in the early 20th century, then moves to more contemporary foreign affairs and dictators. She speaks from her own experience, while relating facts surrounding each fascist's rise to power, and later drawing from her time as Secretary of State.

Fascism: A Warning – HarperCollins

Fascism: A Warning is an audiobook for our times that is relevant to all times. Written with wisdom by someone who has not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

Fascism: A Warning (Audio Download): Amazon.co.uk ...

Fascism: A Warning is her sixth book and is perhaps her most important work to date, as the world seems to face what many fear could be a long period of darkness. Albright is careful to warn against the indiscriminate use of the term "fascism," and she very properly begins this book with a discussion of its proper usage and meaning.

MADELEINE ALBRIGHT: FASCISM a Warning. The former secretary of state Madeleine Albright recently issued a book titled: Fascism a Warning. Having in mind the title of the book, I expected a text that would be a serious, scientific contribution to the deeper study of the causes of the origin, development and consequences of the social pathological phenomena called Fascism.

Fascism: A Warning: Albright, Madeleine: 9780062856524 ...

#1 New York Times Bestseller **A personal and urgent examination of Fascism in the twentieth century and how its legacy shapes today's world, written by one of the most admired public servants in American history, the first woman to serve as U.S. secretary of state** **A Fascist, observed Madeleine Albright, "is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have."** The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. In **Fascism: A Warning**, Madeleine Albright draws on her experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. **Fascism: A Warning** is a book for our times that is relevant to all times. Written by someone who not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

"There is priceless wisdom on every page."**Kirkus Starred review

"Richly detailed. . . an intimate portrait of a diplomat." —New Yorker From the seven-time New York Times bestselling author and former Secretary of State Madeleine Albright—among history's most admired and tireless public servants—a revealing, funny, and inspiring reflection on the challenge of continuing one's career far beyond the normal age of retirement In 2001, when Madeleine Albright was leaving office as America's first female secretary of state, interviewers asked her how she wished to be remembered. "I don't want to be remembered," she answered. "I am still here and have much more I intend to do. As difficult as it might seem, I want every stage of my life to be more exciting than the last." In that time of transition, the former Secretary considered the possibilities: she could write, teach, travel, give speeches, start a business, fight for democracy, help to empower women, campaign for favored political candidates, spend more time with her grandchildren. Instead of choosing one or two, she decided to do it all. For nearly twenty years, Albright was in constant motion, navigating half a dozen professions, clashing with presidents and prime ministers, learning every day. After leaving the State Department, she blazed her own trail—and gave voice to millions who yearned for respect, regardless of gender, background, or age. *Hell and Other Destinations* reveals this remarkable figure at her bluntest, funniest, most intimate, and most serious. It is the tale of our times anchored in lessons for all time, narrated by an extraordinary woman who had a matchless zest for life.

"No single book is as relevant to the present moment."—Claudia Rankine, author of *Citizen* "One of the defining books of the decade."—Elizabeth Hinton, author of *From the War on Poverty to the War on Crime* **NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE** • With a new preface • Fascist politics are running rampant in America today—and spreading around the world. A Yale philosopher identifies the ten pillars of fascist politics, and charts their horrifying rise and deep history. As the child of refugees of World War II Europe and a renowned philosopher and scholar of propaganda, Jason Stanley has a deep understanding of how democratic societies can be vulnerable to fascism: Nations don't have to be fascist to suffer from fascist politics. In fact, fascism's roots have been present in the United States for more than a century. Alarmed by the pervasive rise of fascist tactics both at home and around the globe, Stanley focuses here on the structures that unite them, laying out and analyzing the ten pillars of fascist politics—the language and beliefs that separate people into an "us" and a "them." He knits together reflections on history, philosophy, sociology, and critical race theory with stories from contemporary Hungary, Poland, India, Myanmar, and the United States, among other nations. He makes clear the immense danger of underestimating the cumulative power of these tactics, which include exploiting a mythic version of a nation's past; propaganda that twists the language of democratic ideals against themselves; anti-intellectualism directed against universities and experts; law and order politics predicated on the assumption that members of minority groups are criminals; and fierce attacks on labor groups and welfare. These mechanisms all build on one another, creating and reinforcing divisions and shaping a society vulnerable to the appeals of authoritarian leadership. By uncovering disturbing patterns that are as prevalent today as ever, Stanley reveals that the stuff of politics—charged by rhetoric and myth—can quickly become policy and reality. Only by recognizing fascist politics, he argues, may we resist its most harmful effects and return to democratic ideals. "With unsettling insight and disturbing clarity, *How Fascism Works* is an essential guidebook to our current national dilemma of democracy vs. authoritarianism."—William Jelani Cobb, author of *The Substance of Hope*

Prologue -- Individualism or totalitarianism -- Succession or failure -- Integration or empire -- Novelty or eternity -- Truth or lies -- Equality or oligarchy -- Epilogue

"One of the most diverting political bios in recent memory." -- *Entertainment Weekly* Revised and updated with a new epilogue, *Madam Secretary* is the moving and inspiring memoir of one of the most distinguished public figures in American history, seven-time New York Times bestselling author and former Secretary of State Madeleine Albright **A national bestseller on its first publication in 2003, Madam Secretary is the riveting personal story of former Secretary of State Madeleine Albright. For eight years, during Bill Clinton's two presidential terms, Albright was an active participant in some of the most dramatic events of our time—from the pursuit of peace in the Middle East to NATO's humanitarian intervention in Kosovo. In this thoughtful memoir, one of the most admired women in American history shares her remarkable story, including thoughts on her upbringing in Czechoslovakia and her role as a wife and mother, and provides an insider's view on global affairs during this period of extraordinary turbulence. Madam Secretary offers an inimitable blend of Albright's warm humor, personal recollection, and riveting insight on events that shaped our nation and our world.**

#1 New York Times Bestseller • **A historian of fascism offers a guide for surviving and resisting America's turn towards authoritarianism. The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. On Tyranny is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come. "Mr. Snyder is a rising public intellectual unafraid to make bold connections between past and present."** --The New York Times

"A riveting tale of her family's experience in Europe during World War II [and] a well-wrought political history of the region, told with great authority. . . . More than a memoir, this is a book of facts and action, a chronicle of a war in progress from a partisan faithful to the idea of Czechoslovakian democracy." -- *Los Angeles Times* Drawn from her own memory, her parents' written reflections, and interviews with contemporaries, the former US Secretary of State and New York Times bestselling author Madeleine Albright's tale that is by turns harrowing and inspiring Before she turned twelve, Madeleine Albright's life was shaken by some of the most cataclysmic events of the 20th century: the Nazi invasion of her native Prague, the Battle of Britain, the attempted genocide of European Jewry, the allied victory in World War II, the rise of communism, and the onset of the Cold War. In *Prague Winter*, Albright reflects on her discovery of her family's Jewish heritage many decades after the war, on her Czech homeland's tangled history, and on the stark moral choices faced by her parents and their generation. Often relying on eyewitness descriptions, she tells the story of how millions of ordinary citizens were ripped from familiar surroundings and forced into new roles as exile leaders and freedom fighters, resistance organizers and collaborators, victims and killers. These events of enormous complexity are shaped by concepts familiar to any growing child: fear, trust, adaptation, the search for identity, the pressure to conform, the quest for independence, and the difference between right and wrong. *Prague Winter* is an exploration of the past with timeless dilemmas in mind, a journey with universal lessons that is simultaneously a deeply personal memoir and an incisive work of history. It serves as a guide to the future through the lessons of the past, as seen through the eyes of one of the international community's most respected and fascinating figures in history. Albright and her family's experiences provide an intensely human lens through which to view the most political and tumultuous years in modern history.

"What makes Trump immune is that he is not a president within the context of a healthy Republican government. He is a cult leader of a movement that has taken over a political party -- and he specifically campaigned on a platform of one-man rule. This fact permeates "Can It Happen Here? . . . which concludes, if you read between the lines, that "it" already has." -- *New York Times Book Review* From *New York Times* bestselling author Cass R. Sunstein, a compelling collection of essays by the brightest minds in America on authoritarianism. With the election of Donald J. Trump, many people on both the left and right feared that America's 240-year-old grand experiment in democracy was coming to an end, and that Sinclair Lewis' satirical novel, *It Can't Happen Here*, written during the dark days of the 1930s, could finally be coming true: Is the democratic freedom that the United States symbolizes really secure? Can authoritarianism happen in America? Acclaimed legal scholar, Harvard Professor, and *New York Times* bestselling author Cass R. Sunstein queried a number of the nation's leading thinkers. In this thought-provoking collection of essays, these distinguished thinkers and theorists explore the lessons of history, how democracies crumble, how propaganda works, and the role of the media, courts, elections, and "fake news" in the modern political landscape—and what the future of the United States may hold. Contributors include: Martha Minow, dean of Harvard Law School; Eric Posner, law professor at the University of Chicago Law School; Tyler Cowen, economics professor at George Mason University; Timur Kuran, economics and political science professor at Duke University; Noah Feldman, professor of law at Harvard Law School; Jonathan Haidt, social psychologist and Professor of Ethical Leadership at New York University's Stern School of Business; Jack Goldsmith, Professor at Harvard Law School, Senior Fellow at the Hoover Institution, and co-founder of *Lawfare*; Stephen Holmes, Professor of Law at New York University; Jon Elster, Professor of the Social Sciences at Columbia University; Thomas Ginsburg, Professor of International Law and Professor of Political Science at the University of Chicago and a member of the American Academy of Arts and Sciences; Cass R. Sunstein, Robert Walmsley University Professor, Harvard University; Duncan Watts, sociologist and principal researcher at Microsoft Research; Geoffrey R.
