Commercial Law offers a fresh, modern, and stimulating exploration of this diverse and fascinating area of law. The text provides thorough coverage of all key aspects of the syllabus, including the law of agency, the sale of goods, international trade, and methods of payment, finance, and security. A range of learning features are employed throughout the book to encourage understanding of the law and to demonstrate and contextualize how the principles behind it play out in practical domestic and international commercial transactions. Online Resource Centre: Commercial Law is accompanied by a comprehensive Online Resource Centre which offers free access to the following resources: \* A test bank of multiple-choice questions\* Guidance on approaching the questions posed in the book\* Bonus online chapters covering consumer credit, insurance law, and competition law\* Further reading lists for each chapter\* A flashcard glossary\* Downloadable versions of the diagrams from the book

Commercial Law Concentrate is written and designed to help you succeed. Written by experts and covering all key topics, Concentrate guides go above and beyond, not only consolidating your learning but focusing your revision and maximising your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases. Revision guides you can rely on: trusted by lecturers, loved by students... "I am hugely impressed by this little textbook on the substance: it does a better and clearer job at explaining key issues than many of the core texts. - Dr Eleni Frantziou, Associate Professor in Public Law & Human Rights, Durham University "The Concentrate books are my favourite revision guides as the quality of the information is always more comprehensive than others." Carly Hatchard, law student, University of Bolton "This revision guide is excellent ... I would certainly recommend it as a revision aid" - Claudia Carr, Principal Lecturer, Hertfordshire Law School, University of Hertfordshire "The Concentrate structure is extremely good, it makes it so much easier to revise ... no key information is left out, it's a great series." Emma Wainwright, law student, Oxford Brookes University "A really good overview of the key themes, tensions, and debates ... encourages students to go that bit further to increase their

chances of scoring better in the assessment." - Professor Nicola Glover-Thomas, Professor of Law, University of Manchester "I have always used OUP revision and Q&A books and genuinely believe they have helped me get better grades" - Anthony Poole, law student, Swansea University "Undoubtedly a good resource ... I would certainly recommend it as additional material for modules assessed by examination." - Dr Ben Stanford, School of Law, Liverpool John Moores University "The detail in this revision textbook is phenomenal and is just what is needed to push your exam preparation to the next level" - Stephanie Lomas, law student, University of Central Lancashire Take it online: The 6th edition is available in paperback, or e-book and is supported by extensive online resources to take your learning further. Visit [www.oup.com/lawrevision/](http://www.oup.com/lawrevision/) for expert revision and study advice, self-test questions and answers, flashcard key cases and glossary and outline answers to questions from the book.

Remedies in Construction Law brings together various well-established strands of the law and considers practical remedies for breach of contract and tort in connection with construction projects. Now in a fully updated second edition, it covers topics such as: Damages Termination Quantum Meruit Recovery Injunctions Limitation ADR This book continues to be a vital reference to lawyers and construction professionals seeking specialist insight into how remedies function in the construction sector.

"Once more, we were delighted to take on the task of updating this text for its 14th edition, having taken over editorial responsibilities from the late John Adams from the 13th edition. In our preface to the previous edition, we recorded the sudden passing of Professor Adams. Sadly, in this preface, we must note another passing: on 30 March 2018, Patrick Atiyah, who wrote the 1st-8th editions of this book and continues to give the book its name, passed away at the age of 87. Patrick was one of those giants of academic contract law whose contributions continue to be read and to inspire scholars everywhere. We are both mindful of our task to maintain the scholarly rigour which he gave to this book as we take it into the future. This edition is also the first time since the 9th edition without a Scottish editor. Professor Hector MacQueen had been responsible for adding Scottish content since the 10th edition (2001), but decided that he would discontinue this role after the 13th edition was published in 2016. We are very grateful for Hector's contributions to the work. On the advice of the book's publishers, this edition has been put together without the benefit of a Scottish editor, although we have, of course, continued to take decisions from the Scottish courts into account in updating the various chapters. Since the last edition was published, there have been few major developments in the law on the sale of goods, aside from the difficult ruling by the Supreme Court in *PST Energy 7 Shipping LLC v OW Bunker Malta Ltd* [2016] UKSC 23 (which arrived too late for proper consideration in the previous edition). We have updated the text in light of recent cases and academic writings where appropriate. Furthermore, we have continued our task of streamlining the running order of the chapters, and we have sought to make gentle updates to the language of the book, preserving its rigour but ensuring it remains accessible to a contemporary audience. In some instances, we have curtailed or removed altogether the detailed discussion of the pre-1994 case-law which had become redundant as a result of the changes made to the Sale of Goods Act at that time. The rise of digital technology and new business models in the digital economy will invariably have an impact on the law concerning the sale of goods, but at this point, the real impact is not yet known. In some places, we have alluded to the possible significance of digital technology, and this could well become a more significant theme in future editions"--

Now in its second edition, Construction Law is the standard work of reference for busy construction law practitioners, and it will support lawyers in their contentious and non-contentious practices worldwide. Published in three volumes, it is the most comprehensive text on this subject, and provides a unique and

invaluable comparative, multi-jurisdictional approach. This book has been described by Lord Justice Jackson as a "tour de force", and by His Honour Humphrey LLOYD QC as "seminal" and "definitive". This new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law, as well as changes to statutes and regulations. The laws of Hong Kong and Singapore are also now covered in detail, in addition to those of England and Australia. Practitioners, as well as interested academics and post-graduate students, will all find this book to be an invaluable guide to the many facets of construction law.

Contract Law Directions is a clear, accessible and well-structured contract law text assuming no previous knowledge of the subject, making this the ideal text for those encountering contract law for the first time. The authors offer a practical, clear exposition of the key concepts and principles covered on undergraduate courses. A wide range of pedagogical features including diagrams and flowcharts elucidate the complex ideas and examples of commonplace and real-life situations provide a grounded understanding of the law. The book is accompanied by an extensive range of online resources including multiple choice questions, suggested approaches to answering the questions at the end of each chapter, web links, a glossary of key terms, and electronic versions of diagrams in the book for lecturers.
