This book is useful for B.Com., M.Com., and MBA students of all Indian Universities. Presentation of various aspects of entrepreneurship is the most salient features of this book. Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book. Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book.

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards – 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly. • The relevant provisions of Ind AS — 7; Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book. • In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summarised in the chapter. • All chapters have been revised and udapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest. We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.), M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

This text presents an accessible introduction to techniques and applications of economic analysis and financial accounting as a method for approaching real-life business problems for managerial decision making in a logical manner. It focusses on the essential skills needed to formulate business policies that help gain a competitive edge in today's work environment. The book discusses the basic concepts, terminology, and methods that eventually allow students to interpret, analyse, and evaluate actual corporate financial statements. It covers the major areas of managerial economics and financial accounting such as the theory of the firm, the demand theory and forecasting, the production and cost theory and estimation, the market structure and pricing, investment analysis, accountancy, and different forms of business organisations. The book includes numerous examples, problems, self-assessment tests, as well as review questions at the end of each chapter to aid in working out solutions to business problems. The book will be particularly suitable for courses in Managerial Economics and Financial Accounting as part of an engineering degree education at undergraduate level where the students have no previous back-ground in economic and financial analysis. It will also be immensely useful for M.B.A., M.Com. and C.A. students, business exe-cutives, and administrators who need to learn the application of economic theory to realistic business situations.

The present thoroughly revised edition of this book extensively covers the syllabus of Commerce and Management courses of various Universities. It also meets the requirements of various professional and commercial courses. The topics like (i) Principles and Methods of Auditing; (ii) Difference between Accounting and Auditing; (iii) Internal checks and auditing; (iv) Vouching; (v) Verification and Valuation of Assets; (vi) Audit of Limited Companies; (vii) Skill Development, have been presented in very simple and lucid manner. The students will find the book very useful.

From the pediatrician who became an Internet sensation with the "Hamilton Hold" in a YouTube video about how to calm a crying baby, comes a one-of-a-kind resource to guide you through the earliest moments of your child's life—and help you to parent with common sense and confidence. Robert C. Hamilton, M.D., has spent more than three decades caring for newborns. In his practice, Dr. Bob has seen it all—what works, what doesn't. How can you get your baby to nurse, sleep, and maybe even cease crying? What strategies can help you connect and communicate with your infant? What important decisions will you make during the first year for your child, yourself, and your partner? Here, Dr. Bob shares his clear, sensible, warm advice—as well as all the latest scientific data and research—on how to: • Offer comfort to a crying newborn using the "Hold" • Gently teach your baby how to sleep (and get some sleep yourself) • Establish healthy patterns • Breastfeed, formula-feed, or bottle-feed using either • Play! • Manage screen time in your home • And more to help you navigate the unforgettable first year of your child's life.

This textbook provides students with the knowledge of basic accounting principles and practices concerned with preparing and presenting corporate accounts in a systematic manner. The unique feature of this book is the simplicity of presentation which enables students to understand the subject and solve practical problems with ease. The main strengths of the book are the plentiful illustrative examples and the end-of-chapter exercises with answers. The wide coverage and user-friendly approach makes the book to comprehensively meet the requirements of students studying Corporate Accounting as a subject at B.Com & BBA examinations of different Indian universities based on Choice Based Credit System (CBCS).
