What's a procedure? Sometimes a policy will need a supporting procedure. Procedures are clear and concise instructions on how to abide by the policy and detail the sequence of activities that are required to complete tasks. They should include the 'how to' guidelines to achieve the necessary results, and be: factual, simple to understand and succinct

Research universities are critical contributors to our national research enterprise. They are the principal source of a world-class labor force and fundamental discoveries that enhance our lives and the lives of others around the world. These institutions help to create an educated citizenry capable of making informed and crucial choices as participants in a democratic society. However many are concerned that the unintended cumulative effect of federal regulations undercuts the productivity of the research enterprise and diminishes the return on the federal investment in research. Optimizing the Nation's Investment in Academic Research reviews the regulatory framework as it currently exists, considers specific regulations that have placed undue and often unanticipated burdens on the research enterprise, and reassesses the
