Financial Markets and Institutions, 5e offers a unique analysis of the risks faced by investors and savers interacting through financial institutions and financial markets, as well as strategies that can be adopted for controlling and managing risks. Special emphasis is put on new areas of operations in financial markets and institutions such as asset securitization, off-balance-sheet activities, and globalization of financial services.

Financial Markets and Institutions is aimed at the first course in financial markets and institutions at both the undergraduate and MBA levels. While topics covered in this book are found in more advanced textbooks on financial markets and institutions, the explanations and illustrations are aimed at those with little or no practical or academic experience beyond the introductory-level finance courses. In most chapters, the main relationships are presented by figures, graphs, and simple examples. The more complicated details and technical problems related to in-chapter discussion are provided in appendixes to the chapters. Since the author team's focus is on return and risk and the sources of that return and risk in domestic and foreign financial markets and institutions, this text relates ways in which a modern financial manager, saver, and investor can expand return with a managed level of risk to achieve the best, or most favorable, return-risk outcome.

Gain a clear understanding of why financial markets exist, how financial institutions serve these markets, and what services those institutions offer with the proven conceptual framework and clear presentation in Madura's best-selling FINANCIAL MARKETS AND INSTITUTIONS 11E. The text weaves timely examples and practical applications throughout as it emphasizes the securities traded by and the scope of participation of financial institutions within each market. Readers focus on the management, performance, and regulatory aspects of financial institutions and explore the functions of the Federal Reserve System, the major debt and equity security markets, and the derivative security market. This text emphasizes current financial reform with updates throughout that provide a thorough understanding of today's most recent financial changes, developments and trends. "The last 30 years have been dramatic for the financial services industry. In the1990s and 2000s, boundaries between the traditional industry sectors, such as commercial banking and investment banking, broke down and competition became increasingly global in nature. Many forces contributed to this breakdown in interindustry and intercountry barriers, including financial innovation, technology, taxation, and regulation. Then in 2008-2009, the financial services industry experienced the worst financial crisis since the Great Depression. Even into the mid-2010s, the U.S. and world economies have not recovered from this crisis. It is in this context that this book is written. As the economic and competitive environments change, attention to profit and, more than ever, risk become increasingly important. This book offers a unique analysis of the risks faced by investors and savers interacting through both financial institutions and financial markets, as well as strategies that can be adopted for controlling and better managing these risks. Special emphasis is also put on new areas of operations in financial markets and institutions such as asset securitization, off-balance-sheet activities, and globalization of financial services"--

Financial Institutions and Markets focuses on the operation of Australia's financial system. Thoroughly updated, this eighth edition retains the structure of the seventh edition, examining the financial system's three main functions: settlement, flow-of-funds and risk transfer. The book provides a comprehensive and comprehensible integrated account of the activities of Australia's financial institutions and markets and their instruments including the major capital and foreign exchange markets, and the markets for derivatives. This new edition is complemented by digital resources on the MindTap online platform - also enabling flipped delivery of the content, expanded learning objectives, and updated case studies and research to cover recent events such as Brexit. Premium online teaching and learning tools are available to purchase on the MindTap platform Learn more about the online tools [cengage.com.au/learning-solutions](#)
