smart grid and other emerging programs. The environmental sections reflect the current emphasis on greenhouse gas emissions and carbon management, updates to CAAA regulations and timelines and the latest developments in the use and control of refrigerants.

The transformation of the investment industry towards one that finances a sustainable economy seems underway. The question is what will go faster: global warming or the corrective action driven, in large part, by the capital markets. Crucial in this race is that investors gain experience in what-is-called sustainable investing. It is work in progress. This book showcases the serious efforts that are going into ESG investment research, covering corporate social responsibility,
