MATHEMATICAL APPLICATIONS FOR THE MANAGEMENT, LIFE, AND SOCIAL SCIENCES, 10th Edition, is intended for a two-semester applied calculus or combined finite mathematics and applied calculus course. The book's concept-based approach, multiple presentation methods, and interesting and relevant applications keep students who typically take the course--business, economics, life sciences, and social sciences majors--engaged in the material. This edition broadens the book's real-life context by adding a number of environmental science and economic applications. The use of modeling has been expanded, with modeling problems now clearly labeled in the examples. Also included in the Tenth Edition is a brief review of algebra to prepare students with different backgrounds for the material in later chapters. Instructors are loyal to Howard Rolf ' s text because teaching from it is easy. Why? Exercises at a variety of levels, flexible technology integration, and many interesting business applications make concepts relevant, clear, and easier to understand for students. The new edition of FINITE MATHEMATICS continues to rely on a rich array of examples and a student-friendly approach to illustrate the utility of mathematical concepts in analyzing and solving problems. Optional graphing calculator problems and Microsoft Excel applications are available for instructors who wish to bring technology into the course. This Enhanced Edition includes instant access to Enhanced WebAssign, the most widely-used and reliable homework system. Enhanced WebAssign presents over a thousand problems, links to relevant textbook sections, video examples, problem-specific tutorials, and more, that help students grasp the concepts needed to succeed in this course. As an added bonus, the Start Smart Guide has been bound into this text. This guide contains instructions to help students learn the basics of WebAssign quickly.
