Since the publication of the first edition in 1966, the Food Chemicals Codex has provided the accepted standards for quality and purity in food chemicals. Officially referenced by the U. S. Food and Drug Administration, and the standard setter for food chemicals in the United States, Canada, Australia, and many other countries, the Fourth ...

~~Food Chemicals Codex, Fourth Edition: Institute of Me ...~~

Food chemicals codex. 3rd ed. 1981. National Research Council (USA). Food and Nutrition Board. Committee on Codex Specifications. A reference text provides information on chemicals which are added to or come in contact with foods, and adds specifications for ingredients more generally regarded as food than additives (e.g., dextrose, fructose).

The Fifth Edition reflects many of the changes in science and manufacturing since the publication of the Fourth Edition. Also, where feasible, FCC specifications are now harmonized with those of other standard setters, in particular the FAO/WHO Compendium of Food Additive Specifications. The FCC receives international recognition by manufacturers, vendors, and users of food chemicals. The Fifth Edition will be a welcome update to food technologists, quality control specialists, research investigators, teachers, students, and others involved in the technical aspects of food safety.

The fourth edition of the Food Chemicals Codex is the culmination of efforts of the many members, past and present, of the Committee on Food Chemicals Codes (FCC). The current committee, formed in the fall of 1992 at the request of the U.S. Food and Drug Administration, has brought all these efforts to fruition with this edition.
