2017 Ford Expedition EL Consumer Reviews | Cars.com

An Expedition EL is a very large vehicle, over 6000 lbs. Such a large vehicle brings a lot of benefits: room to carry 8, plus luggage with room to spare, the advantage of a truck frame, substantial...

2016 Ford Expedition EL Consumer Reviews | Cars.com

Ford hasn't entirely overcome the ride quality or mileage issues, but they have mitigated both in the Expedition with a turbocharged V6 engine and an independent rear suspension. If towing a boat or a trailer isn't on your agenda, there are other better-riding, less fuel-thirsty choices.

2019 Ford Expedition Review - Autotrader

With only a couple of real competitors, the 2020 Ford Expedition is a unique beast. With carlike crossovers spreading across the landscape, the large, truck-based SUV is a rare bird, indeed. With their body-on-frame constructions, truck-based SUVs tend to be stiffer, more rugged and less fuel-efficient than car-based crossovers.

2020 Ford Expedition Review - Autotrader

The biggest of Ford's body-on-frame SUVs, the 2017 Ford Expedition EL is over a foot longer than the regular-length Expedition. That means the Expedition EL has a significant advantage in cargo space. It also offers plenty of towing power and a surprising range of luxury features. Yet many rivals can deliver more advanced safety technologies.

2017 Ford Expedition EL Review | Kelley Blue Book

2017 Ford Expedition EL Review | Kelley Blue Book

Author Corey Ford writes the classic and moving story of naturalist Georg Wilhelm Steller, who served on the 1741-42 Russian Alaska expedition with explorer Vitus Bering. Steller was one of Europe's foremost naturalists and the first to document the unique wildlife of the Alaskan coast. In the course of the voyage, Steller made his valuable discoveries and suffered, along with Bering and the cred of the ill fated brig St. Peter, some of the most grueling experiences in the history of Arctic exploration. First published in 1966, Where the Sea Breaks Its Back was hailed as "among this country's greatest outdoor writing" by Field & Stream magazine, and today continues to enchant and enlighten the new generations of readers about this amazing and yet tragic expedition, and Georg Steller's significant discoveries as an early naturalist.

Selected by the Modern Library as one of the 100 best novels of all time Published in 1975, Ragtime changed our very concept of what a novel could be. An extraordinary tapestry, Ragtime captures the spirit of America in the era between the turn of the century and the First World War. The story opens in 1906 in New Rochelle, New York, at the home of an affluent American family. One lazy Sunday afternoon, the famous escape artist Harry Houdini swerves his car into a telephone pole outside their house. And almost magically, the line between fantasy and historical fact, between real and imaginary characters, disappears. Henry Ford, Emma Goldman, J. P. Morgan, Evelyn Nesbit, Sigmund Freud, and Emiliano Zapata slip in and out of the tale, crossing paths with Doctorow's imagined family and other fictional characters, including an immigrant peddler and a ragtime musician from Harlem whose insistence on a point of justice drives him to revolutionary violence.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." -New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naivet e, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Writer Sarah Glenn Marsh and illustrator Gilbert Ford's Alice Across America is a nonfiction picture book account of maverick Alice Ramsey, the first woman to drive a car across America in 1909. When Alice Ramsey was little, she loved to ride horses. As she grew up, more people were driving cars. From the moment Alice slid behind the wheel, she was crazy about cars. So when the Maxwell-Briscoe Company challenged her to drive one of their new cars across the country as a promotional ploy to prove that even a lady could do it, Alice daringly accepted. With several women by her side, these brazen drivers sustained many hardships over the course of a remarkable two-month journey and far surpassed all expectations. With a clever blend of women's history, technological history, and American roading geography, this is a celebration of unstoppable women making strides in twentieth-century America. Christy Ottaviano Books

Henry Steegman is hardly "Mr. Personality" aboard the Mers-bound Algonquin 9. Yet it is he who bungles upon the spectacular Macy's-like city beneath the Red Planet's crust. For better or worse, the name Steegman will be immortalized by a discovery that will transform millions of lives. For a struggling screenwriter, the Martian beings could mean a big story, big bucks, headlines...and more women than any many his size has ever known... For an exiled Russian rocket man, the are a possible route to America's space program, and the land of opportunity... For a flying-saucer faker of flickering fame, the possibilities are out of this world. In a brilliant near-future look at the human condition, Frederick Pohl has honed his satire-sharp science fiction to a steely new edge.

2017 Ford Expedition EL Review | Kelley Blue Book

A wedding. A trip to Spain. The most infuriating man. And three days of pretending. Or in other words, a plan that will never work. Catalina Martin, finally, not single. Her family is happy to announce that she will bring her American boyfriend to her sister's wedding. Everyone is invited to come and witness the most magical event of the year. That would certainly be tomorrow's headline in the local newspaper of the small Spanish town I came from. Or the epitaph on my tombstone, seeing the turn my life had taken in the span of a phone call. Four weeks wasn't a lot of time to find someone willing to cross the Atlantic--from NYC and all the way to Spain--for a wedding. Let alone, someone eager to play along with my charade. But that didn't mean I was desperate enough to bring the 6'4 blue eyed pain in my ass standing before me, Aaron Blackford. The man whose main occupation was making my blood boil had just offered himself to be my date. Right after inserting his nose in my business, calling me delusional, and calling himself my best option. See? Outrageous. Aggravating. Blood boiling. And much to my total despair, also right. Which left me with a surly and extra large dilemma in my hands. Was it worth the suffering to bring my colleague and bane of my existence as my fake boyfriend to my sister's wedding? Or was I better off coming clean and facing the consequences of my panic induced lie? Like my abuela would say, que dios nos pille confesados.The Spanish Love Deception is an enemies-to-lovers, fake-dating.
