Heralds' Collegium. Reprint. A best-selling novel.

The long-awaited brand new novel in the bestselling Valdemar series. In this chronicle of the early history of Valdemar, Mercedes Lackey's bestselling world, a thirteen year- old orphan named Magpie escapes a life of slavery in the gem mines when he is chosen by one of the magical Companion horses of Valdemar to be trained as a Herald. Thrust into the center of a legend in the making, Magpie discovers talents he never knew he had and witnesses the founding of the great Heralds' Collegium.

Magpie is a thirteen-year-old orphan chosen by one of the magical Companion horses of Valdemar and taken to the capital city, Haven, to be trained as a Herald. Like all Heralds, Magpie learns that he has

a hidden Gift-the Gift of telepathy. But life at the court is not without obstacles. When Mags is "recognized" by foreign secret operatives whose purpose is unknown, Mags himself comes under suspicion. Who are Magpie's parents-who is he, really? Can Mags also solve the riddle of his parentage and his connection with the mysterious spies-and prove his loyalty-before the king and court banish him as a traitor?

Mags returns to the Collegium, but there are mixed feelings--his included--about him actually remaining there. No one doubts that he is and should be a Herald, but he is afraid that his mere presence is going to incite more danger right in the heart of Valdemar. The heads of the Collegia are afraid that coming back to his known haunt is going to give him less protection than if he went into

hiding. Everyone decides that going elsewhere is the solution for now. So since he is going elsewhere--why not return to the place he was found in the first place and look for clues? And those who are closest to him, and might provide secondary targets, are going along. With Herald Jadrek, Herald Kylan (the Weaponsmaster's chosen successor), and his friends Bear, Lena, and Amily, they head for the Bastion, the hidden spot in the hills that had once been the headquarters of a powerful band of raiders that had held him and his parents prisoner. But what they find is not what anyone expected.

Life at the Heralds' Collegium in Haven has definitely improved for Mags. He's even become something of a hero since risking his own life to rescue Amily--daughter of Nikolas, the King's Own Herald--from Karsite kidnappers. But Mags still doesn't know who

his parents were, and Bear, Mags' Trainee friend, was not one to let him forget: "You gotta deal with your past Mags, you have to. If you don't, it'll just keep coming back to haunt you, and one day it'll do something to you that you can't get out of." Mags began his special training as Nikolas' undercover partner and future spy for the crown. Disguised, they work at night in one of the seedier parts of Haven, where Nikolas had set up a false identity as a pawnbroker and fence. Mags poses as his deaf-mute nephew, covertly watching and listening from behind the desk. He was especially good at the trait that had kept him alive as a child laborer in the gem mine--ferreting out hidden motives. Now Mags has graduated to a new role: Nikolas' partner and information broker. Mags channels his old cunning self from the mines and discovers that he's quite good at his new job. So good, in fact, that Nikolas decides to let him

open the shop alone one hot, summer night. Mags has barely unlocked the shop when everything goes black in a blinding flash of pain. He wakes with an agonizing headache, bound, blindfolded, in a conveyance of some kind. But worst of all, he's head-blind. No Mindspeech--he can't even sense Dallen. And if he can't sense or hear Dallen, then no one can sense him. And if no one can sense him, no one can come to his rescue.

New York Times-bestselling author Mercedes Lackey's Herald Spy series, set in the beloved fantasy world of Valdemar Herald Mags, Valdemar's first official Herald Spy, is well on his way to establishing a coterie of young informants, not only on the streets of Haven, but in the kitchens and Great Halls of the highborn and wealthy as well. The newly appointed King's Own Herald, Amily,

although still unsure of her own capability in that office, is doing fine work to support the efforts of Mags, her betrothed. She has even found a way to build an army of informants herself, a group of highly trained but impoverished young noblewomen groomed to serve the highborn ladies who live at Court, to be called "The Queens's Handmaidens." And King Kyril has come up with the grand plan of turning Mags and Amily's wedding into a low-key diplomatic event that will simultaneously entertain everyone on the Hill and allow him to negotiate behind the scenes with all the attending ambassadors—something which had not been possible at his son Prince Sedric's wedding. What could possibly go wrong? The answer, of course, is "everything." For all is not well in the neighboring Kingdom of Menmellith. The new king is a child, and a pretender to the throne has raised a rebel army. And this army

is purportedly being supplied with arms by Valdemar. The Menmellith Regency Council threatens war. With the help of a ragtag band of their unlikely associates, Mags and Amily will have to determine the real culprit, amass the evidence to convince the Council, and prevent a war nobody wants – and, somewhere along the way, get married.

Mags was once an enslaved orphan living a harsh life in the mines, until the King's Own Herald discovered his talent and trained him as a spy. Now a Herald in his own right, at the newly established Heralds' Collegium, Mags has found a supportive family, including his Companion Dallen. Although normally a Herald in his first year of Whites would be sent off on circuit, Mags is needed close to home for his abilities as a spy and his powerful Mindspeech gift.

There is a secret, treacherous plot within the royal court to destroy the Heralds. The situation becomes dire after the life of Mags' mentor, King's Own Nikolas, is imperiled. His daughter Amily is chosen as the new King's Own, a complicated and dangerous job that is made more so by this perilous time. Can Mags and Amily save the court, the Heralds, and the Collegium itself?

Mags, a telepathic herald, comes under suspicion by foreign operatives, prompting him to investigate who his parents really were and what his connection is to these mysterious spies, so that he can prove his loyalty to the king before he is banished as a traitor.

In Storm Rising, mysterious mage-storms are wreaking havoc on Valdemar, Karse, and all the kingdoms of the West, plaguing these

lands not only with disastrous earthquakes, monsoons, and ice storms, but also with venomous magical constructs - terrifying creatures out of nightmare. Both Valdemar's Heralds and Karse's Sunpriests struggle to marshal their combined magical resources to protect their realms from these devastating, spell-fueled onslaughts. But as the situation becomes bleaker and bleaker, the still fragile alliance between these long-hostile lands begins to fray. And unless Valdemar and Karse can locate and destroy the creator of the storms, they may see their entire world demolished in a final magical holocaust.

His name is Lavan Firestorm, a young man blessed and cursed with a special talent for firestarting. His legend has haunted the darkest corners of Valdemar, yet the truth has never been told. Here, at last,
