experience in the field, and is essential reading for all those involved in developing materials for language teaching. In the second edition of this highly popular title, each chapter has been comprehensively revised and updated to take into account both recent research and the significant technological developments since the first edition was published in 1998. Two new chapters have been added to assess the potential of electronic media for materials development. These chapters include an overview of the technologies available, as well as individual case studies and activities.
