When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Poetry, "I am spending my 39th year practicing uncreativity. On Friday, September 1, 2000, I began retyping the day's NEW YORK TIMES word for word, letter for letter, from the upper left hand corner to the lower right hand corner, page by page." With these words, Kenneth Goldsmith embarked upon a project which he termed "uncreative writing", that is: uncreativity as a constraint-based process; uncreativity as a creative practice. By typing page upon page, making no distinction between article, editorial and advertisement, disregarding all typographic and graphical treatments, Goldsmith levels the daily newspaper. DAY is a monument to the ephemeral, comprised of yesterday's news, a fleeting moment concretized, captured, then reframed into the discourse of literature. "When I reach 40, I hope to have cleansed myself of all creativity"-Kenneth Goldsmith.

"After getting out of reform school, DeAndre lands back in the life that put him there: racing souped-up cars with stolen parts. But in trying to earn back his Detroit cred--and his girlfriend--he'll learn what it really means to win"--

Challenges the philosophical tenets of "Freakonomics" through case studies that demonstrate the theory that the more costly something is, the less of it people will do, in an economic analysis that covers such topics as price discrimination and corporatescandals.

It takes strength to compete. Becoming a well-known and well-regarded brand enhances a company's strength. Internal branding-especially in service industries-is essential for longevity, great competitive strength, and high financial value. Driven by a shared, authentic corporate culture and guided by top management, employees will build brand value in all their actions and interactions every day. Create a Brand That Inspires: How to Sell, Organize, and Sustain Internal Branding effectively addresses three core brand management challenges in readers' organizations: selling the brand to senior management, organizing the brand on all management levels, and living the brand within each of the company's internal communities. The book includes sixteen international case studies complete with pictures, interviews and examples from a wide range of industries. The long-term, hands-on experience of the co-authors and their unique perspectives on how to successfully develop and manage internal branding make this study a rewarding read for executives, managers and team leaders.
