Because of the COVID-19 pandemic, millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school, but others have found they prefer schooling at home. They've noticed things like, "My child has learned more at home with me in the last 2 months than in the past 2 years at school!" Or, "I kind of like spending so much time with my kids and learning alongside them." Many parents are considering continuing homeschooling beyond the pandemic, and this book is here to help them make an informed decision about their children's education.Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different, and approaches homeschooling and parenting in their own unique way. In this book, 24 seasoned homeschooling families share their experiences. The authors include both religious and secular homeschooling parents from all walks of life. They represent a variety of homeschooling styles (from self-directed learning/unschooling to more formal approaches), abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have children of all ages, from babies, preschoolers, and kindergarteners, to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling, as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education, and what's possible for yourselves and your children.

Daily Handwriting Practice allows students to write letters, words, and sentences about a variety of content-area topics from language arts to science and social studies. Students complete a half-page writing assignment on Monday through Thursday. Then Friday's practice is a full-page review of the week's letter forms. The class pack contains a Teacher's Edition and 20 Student Books.

Teachers use Word Ladders to teach and reinforce letter patterns and rhyming, through writing and repetition. This document contains 53 word ladders, as well as word riddles and questions for each word ladder to help strengthen vocabulary development. The riddles and questions encourage children to think about the meaning of the words, as they use them in learning to read. The word ladders will help children eliminate phonetic frustration, and help build their phonics skills, spelling confidence and self esteem. Mrs. Karle's Sight and Sound Reading Program(tm) offers FREE resources to help teach, strengthen and reinforce reading skills. Mrs. Karle's Sight and Sound Reading Program(tm) creatively teaches the 250 basic sight words -the words found in 80% of what children read - along with teaching and reinforcing of PHONICS, spelling, punctuation and comprehension. Everyone knows that sinking feeling in the pit of the stomach just before diving into a new situation. Sarah Jane Hartwell is scared and doesn't want to start over at a new school. She doesn't know anybody, and nobody knows her. It will be awful. She just knows it. With much prodding from Mr. Hartwell, Sarah Jane reluctantly pulls herself together and goes to school. She is quickly befriended by Mrs. Burton, who helps smooth her jittery transition. This charming and familiar story will delight readers with its surprise ending. Fun, energetic illustrations brighten page after page with the busy antics surrounding Sarah Jane. FIRST DAY JITTERS is an enchanting story that is sure to be treasured by anyone who has ever anticipated a first day of school.

Motivate your students to write with fun-filled reproducibles for every month! Each reproducible pairs a drawing prompt with quick writing prompts on favorite topics: autumn harvest, animals, 100th day, holidays, weather, classroom community, and more. As a pre-writing warm-up, drawing pictures sparks kids' interest, helps them generate ideas and details for writing, and makes their subjects lively and real. A great way to encourage reluctant writers! For use with Grades K-2.

Parents have heard that play is a child's work—but play is not for kids only. As psychologist Lawrence J. Cohen, Ph.D., demonstrates in this delightful new book, play can be the basis for an innovative and rewarding approach to parenting. From eliciting a giggle during baby's first game of peek-a-boo to cracking jokes with a teenager while hanging out at the mall, Playful Parenting is a complete guide to using play to raise strong, confident children. Have you ever stepped back to watch what really goes on when your children play? As Dr. Cohen points out, play is children's complex and fluid way of exploring the world, communicating hard-to-express feelings, getting close to those they care about, working through stressful situations, and simply blowing off steam. That's why "playful parenting" is so important and so successful in building strong, close bonds between parents and children. Through play, we join our kids in their world. We help them express and understand deep emotions, foster connection, aid the process of emotional healing—and have a great time ourselves while we're at it. Anyone can be a playful parent—all it takes is a sense of adventure and a willingness to let down your guard and try something new. After identifying why it can be hard for adults to play, Dr. Cohen discusses how to get down on the floor and join children on their own terms. He covers games, activities, and playful interactions that parents can enjoy with children of all ages, whether it's gazing deep into a baby's eyes, playing chase with a toddler, fantasy play with a grade schooler, or reducing a totally cool teenager to helpless laughter. Playful Parenting also includes illuminating chapters on how to use play to build a child's confidence and self-esteem, how to play through sibling rivalry, and how play can become a part of loving discipline. Written with love and humor, brimming with good advice and revealing anecdotes, and grounded in the latest research, Playful Parenting will make you laugh even as it makes you wise in the ways of being a happy, effective, enthusiastic parent.

Miss Bindergarten, the world's best kindergarten teacher, is getting ready for another milestone. Tomorrow she and her class will have been together for 100 days. To celebrate, each student must bring "100 of some wonderful, one-hundred-full thing!" At night, while the students go to work assembling their projects, Miss Bindergarten is working, too, making special surprises for the class. The 100th day of kindergarten is bound to be unforgettable! Children will delight in hearing about this special event, a common cause for celebration in kindergartens today.
