Exam Board: AQA Level: AS/A-level Subject: Geography First Teaching: September 2016 First Exam: June 2018 AQA approved Encourage every student to develop in-depth knowledge and advanced geographical skills with this Student Book from the leading A-level Geography publisher*, fully updated for 2016 with detailed content coverage, fascinating case studies and assessment preparation materials. - Enables students of all abilities to increase, apply and revise their subject knowledge as they work through clear explanations of key terms and topics - Brings geographical theory to life by providing a rich source of up-to-date case studies for each physical and human topic - Builds the core, cartographic, graphical, statistical and ICT skills that students need to maximise their potential through a dedicated skills section tailored to AQA's 2016 specification - Helps students engage with challenging concepts, reflect on their learning and map their progress with pointer questions throughout and end-of-chapter review questions - Allows AS and A-level students to approach their exams with confidence by undertaking a variety of practice questions written by subject specialists with examining experience - Supports you in planning relevant and exciting fieldwork projects that meet the changed fieldwork and investigation requirements *Taken from Educational Publishers Council statistics

* A rigorous approach to content with a lively presentation and style makes the book interesting, attractive and academically sound * Step-by-step illustrated explanations make new concepts very clear * The author's light touch will appeal to students and make the course interesting and engaging * Very clear explanations will help the full ability range to grasp concepts * Fascinating facts and strange details make the book interesting for all students * Student activities can be answered from the text so give plenty of opportunities for understanding to be tested and for the full ability range to participate

Motivate pupils to develop their geographical skills, knowledge and understanding as they become engaged and accomplished geographers, ready for the demands of GCSE. Specifically designed to provide a solid foundation for the 2016 GCSE specifications, this Student Book takes an enquiry-based approach to learning within each unit and lesson. - Easily and cost-effectively implement a new KS3 scheme of work: this coherent single-book course covers the latest National Curriculum content, providing 150 ready-made lessons that can be used flexibly for a two or three-year KS3 - Build and improve the geographical knowledge and skills that pupils need: every double-page spread represents a lesson, with rich geographical data and place contexts for pupils to interpret, analyse and evaluate - Lay firm foundations for GCSE: key vocabulary, command words and concepts are introduced gradually, preparing pupils for the content and question types they will encounter at GCSE, with a particular focus on analysis and evaluation questions - Effectively assess, measure and demonstrate progress: formative assessments throughout each lesson and summative end-of-unit reviews include questions that show whether pupils are 'working towards', 'meeting' or 'exceeding' expectations - Encourage pupils to check and drive their own progress: learning objectives and end-of-unit learning outcomes help pupils reflect on their learning and make connections between key concepts and skills throughout the course
